REVIEW
The Director of Food Services will ensure that each Chapter of the Food Service Manual is reviewed annually and revised as necessary.

COMPLIANCE
The Food Service Manual is issued with the intent to pull together information from a variety of sources such as directives, operating procedures, regulations, and other mandatory requirements and applies to all Food Service activities in facilities operated by the Department of Corrections (DOC). Contract Food Service vendors must follow all provisions of the Food Service Manual within the specifications of their contract. This manual will not change requirements contained in any approved directive or operating procedure, but does contain specific operational details not included in other documents. Practices and procedures must comply with applicable State and Federal laws and regulations, ACA standards, and DOC directives and operating procedures.
