Opioid Overdose and Naloxone Education— Patient Handout

What are opioids?

Opioids are a class of drugs including heroin, synthetic, and prescription pain medications including:

- Hydrocodone
- Oxycodone
- Fentanyl
- Codeine
- Methadone
- Buprenorphine

What is an opioid overdose?

Opioids can cause a person's **breathing to slow down or stop**— this is considered an overdose.

Who is at risk of an overdose?

Persons:

- Leaving emergency care for overdoses
- Lost tolerance – due to detox, incarceration, abstinence based treatment
- Enrolled in treatment programs
- In active substance use

What is naloxone?

Naloxone temporarily **blocks the effects** of opioids, and can reverse overdose.

- Naloxone only works if **opioids** are in the body, it has no effect on alcohol or other drugs. It can take **1-5 minutes** to start working and may require more than one dose.
- Effects can last **30-90 minutes**, this varies per person;

Naloxone may cause an opioid dependent person to go into **withdrawal** (e.g. nausea, vomiting, agitation, muscle aches). These symptoms will go away as the naloxone wears off.

What does an overdose look like?

- A person is **unresponsive** (they won't wake up even if you yell or shake them)
- Give the person a sternal rub—rake your knuckles up and down on the front of the rib cage in the middle of their chest.
- Slow or **no breathing**
- Lips and/or fingernails turn blue, pale, or gray

What to do in case of an overdose?

1. **Check for Responsiveness.**
2. **Call 911** Follow dispatcher instructions.
3. **Give 2 Rescue Breaths.** for a few quick breaths if the person is not breathing.
4. **Give naloxone** See reverse for instructions. If no reaction after 3 minutes, give second dose.
5. **Give rescue breaths or CPR** (if you know how or are instructed to by 911) until the person responds. **Rescue breathing:** Tilt head back. Pinch nose. Give 1 breath every 5 seconds, repeat.
6. **After care** Stay with the person as long as you can or until help arrives. Make sure the person **doesn't take more opioids**. If you must leave the person, place them on their side in recovery position.

If you don't have naloxone; call for help and give rescue breaths.

Administering Naloxone:

Nasal spray

This nasal spray needs no assembly and can be sprayed up one nostril by pushing the plunger.

Injectable naloxone

This requires assembly. Follow the instructions below.

- 1 Remove cap from naloxone vial and uncover the needle.

- 2 Insert needle through rubber plug with vial upside down. Pull back on plunger and take up 1 ml.

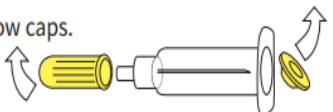

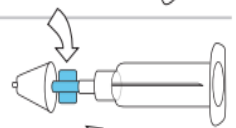

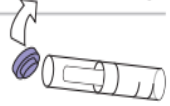

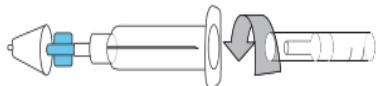

- 3 Inject 1 ml of naloxone into an upper arm or thigh muscle.

- 4 If no reaction in 3 minutes, give second dose.

Nasal spray with assembly

This requires assembly. Follow the instructions below.

- 1** Take off yellow caps. 
- 2** Screw on white cone. 
- 3** Take purple cap off capsule of naloxone. 
- 4** Gently screw capsule of naloxone into barrel of syringe. 
- 5** Insert white cone into nostril; give a short, strong push on end of capsule to spray naloxone into nose: **ONE HALF OF THE CAPSULE INTO EACH NOSTRIL.** 

Push to spray.
- 6** If no reaction in 3 minutes, give second dose.

“Good Samaritan Law”

Allows a person to assert an affirmative defense in court against certain charges, including possession (not distribution) of drugs or paraphernalia, intoxication and unlawful purchase, possession or consumption of alcohol.

You can still be charged and arrested with these crimes, but if you seek medical attention for the person overdosing and (a) remain at the scene or with the person until law enforcement arrives and (b) identify yourself to the responding law-enforcement officer you can assert an affirmative (a stronger) defense in court.

Reduce Risk

Changes in tolerance (how much your body can handle) use less after periods of abstinence

Mixing other drugs such as alcohol, benzos or cocaine—with opioids can increase risk of overdose

Taking opioids alone increases the chance that if something happens, you will not get help.

Temporary Assistance for Needy Families (TANF)

TANF provides temporary financial assistance to eligible families with children. To be eligible, a family must be financially needy and must meet certain other requirements. An eligible child must be under age 18, or if 18, expected to graduate from high school before age 19; going to school regularly if he is between the ages of 5 and 18; living with a parent or other relative; and a citizen of the U. S. or an eligible immigrant.

An applicant must cooperate in naming the parents of all eligible children and must help establish paternity for each child.

The amount of the TANF benefit is based on the size of the family. A family may still be eligible to receive TANF while receiving money from other sources.

TANF debit cards may not be used to buy lottery tickets, alcoholic beverages, tobacco products, or sexually explicit materials. In addition, TANF debit cards may not be used in ABC stores, tattoo or body-piercing businesses, businesses that provide adult-oriented entertainment, or places where gaming is conducted.

If you receive TANF, you may be required to participate in the Virginia Initiative for Employment not Welfare (VIEW) program. Families in the VIEW program may earn income and receive a TANF check. However, the total income cannot be more than the federal poverty level for the family size.

A family with someone in VIEW may receive TANF for no longer than 24 months followed by a period of 24 months ineligibility. A family may receive TANF no more than a total of 60 months in a lifetime.

Additional information regarding the TANF program, application, forms and manual is available at www.dss.virginia.gov.

Medical Assistance Programs—Medicaid, FAMIS Plus, and FAMIS (Family Access to Medical Insurance Security Plan)

Medicaid and the Family Access to Medical Insurance Security Plan (FAMIS) are Medical Assistance programs that make direct payments to health care service providers for eligible individuals and families who are unable to pay for needed medical services. Medicaid for children is called FAMIS Plus.

To be eligible for Medicaid, you must have income and resources (assets) within specified limits and must be in one of the groups covered by Medicaid. Medicaid covered groups include children under age 19 years, pregnant women, parents with dependent children under age 18 years living in the home, adults age 65 years and older, blind individuals, and individuals who are disabled according to the standards adopted by the Social Security Administration. Plan First is a limited-coverage group that covers family planning services and is available to those who do not meet other full-coverage Medical Assistance groups.

FAMIS, and its program for pregnant women, FAMIS MOMS, covers uninsured children under age 19 years and pregnant women with income that is too high for FAMIS Plus/Medicaid but is under the income limit for FAMIS/FAMIS MOMS.

Medicaid/FAMIS Plus and FAMIS have different income limits and nonfinancial requirements. When someone applies for Medical Assistance, the eligibility worker will determine if the person is eligible for a program. Medicaid and FAMIS pay for a variety of medical services, including prescription drugs, doctor visits, nursing facility care and hospital care.

Information about Medicaid/FAMIS Plus is available online from the Virginia Department of Social Services at www.dss.virginia.gov and from Cover Virginia at www.coverva.org.

For more information about FAMIS, please contact the local department of social services or call 1-855-242-8282. Information about FAMIS is also available online at www.coverva.org.

Supplemental Nutrition Assistance Program (SNAP)—formerly the Food Stamp Program

SNAP benefits will help you buy nutritious food for your household. You may also buy seeds or plants to grow your own food.

You may not use SNAP benefits to:

- Buy alcoholic beverages, tobacco, soap, paper products, or other nonfood items;
- Buy hot food ready to be eaten on the store premises.

SNAP benefits are issued electronically to eligible households. You will get a card that is similar to a credit or debit card to use at the authorized retailers to buy food. You must select a Personal Identification Number (PIN) and use that PIN when you swipe the card at the store. SNAP benefits will be added to your account each month you are approved for benefits.

Additional information about SNAP benefits is available at www.dss.virginia.gov.

Energy Assistance Program (EAP) - EAP consists of three components: Fuel Assistance, Crisis Assistance, and Cooling Assistance.

Fuel Assistance assists low-income, eligible households by supplementing home energy costs. Applications are accepted the second Tuesday in October through the second Friday in November. Crisis Assistance assists low-income households with energy related emergencies. Applications are accepted November 1st through March 15th. Cooling Assistance assists households in acquiring or repairing cooling equipment and/or payment of electric bills to operate cooling equipment. Applications are accepted June 15th through August 15th.

Additional information about the EAP is available at www.dss.virginia.gov.

COVID-19: Return to Normal Enrollment

Virginia Medicaid will soon return to our normal enrollment processes. We're working with community partners, advocates and members to make sure eligible Virginians keep getting high quality health care coverage.

Read about emergency policies related to members at:
[COVID-19 Medicaid Information Eligibility, Enrollment, and Appeals](#).

We need your help to meet this goal. Members can make updates:

- Online at commonhelp.virginia.gov, or
- By calling Cover Virginia at 1-855-242-8282,
- By calling their local [Department of Social Services](#).

If you do not qualify for full benefits through Medicaid or FAMIS, or you cannot afford Marketplace coverage, please know that people who are uninsured can get health care services at [Virginia's Free and Charitable Health Clinics](#) and [Virginia's Community Health Centers](#).

Frequently Asked Questions (FAQ)

What is the federal public health emergency and how does it affect Medicaid members?

The federal government declared a public health emergency when the COVID-19 pandemic began. Since then, state agencies have continued health care coverage for all medical assistance programs, even for people who are no longer eligible.

When will normal Medicaid processes begin again?

States will have 12 months to make sure Medicaid members are still eligible for coverage. We do not yet know when this process will start. We will not cancel or reduce coverage for our members without asking them for updated information.

What if members lose their coverage?

We want all eligible Virginians to get and stay covered. If a member no longer qualifies for health coverage from Virginia Medicaid, they will get:

- Notice of when the Medicaid coverage will end,
- Information on how to file an appeal if the member thinks our decision was incorrect, **and**
- A referral to the Federal Marketplace and information about buying other health care coverage.

What can members do now?

Members can:

- Update their contact information by calling Cover Virginia at **1-855-242-8282** or online commonhelp.virginia.gov.
- We must have current contact information on file, such as a mailing address and phone number(s), so members receive important notices and so we can reach out if we need more information.
- Watch for and respond quickly to notices about their coverage.

Revised 01/2020

Virginia Department of Veterans Services

THE VIRGINIA DEPARTMENT OF VETERANS SERVICES (VDVS)

is organized into seven service delivery sections: benefits; veteran and family support; veterans education; transition and employment; care centers; veterans cemeteries; and the Virginia War Memorial.

BENEFITS SERVICES

The VDVS Benefits Services division advocates for Virginia veterans and connects them to benefits and services they have earned. Information on current federal, state and local veterans' programs, entitlements and referral services is available in Virginia through a network of 34 benefit service offices. All services are provided free of charge.

VIRGINIA VETERAN AND FAMILY SUPPORT (VVFS)

The Virginia Veteran and Family Support program monitors and coordinates behavioral health, rehabilitative, and supportive services through an integrated, and responsive system of care. VVFS provides peer and family support and care coordination services to Virginia veterans, members of the Virginia National Guard and Armed Forces Reserves (not in federal service), and their families with a special emphasis on those affected by stress related conditions or traumatic brain injuries resulting from military service.

VETERANS EDUCATION, TRANSITION, AND EMPLOYMENT

VDVS's Veterans Education, Transition, and Employment programs ensure that every veteran or eligible person has a full and fair opportunity to reach his or her fullest potential through access to the G.I. Bill approved post-secondary educational, training/licensure/certification, entrepreneurial institutions, V3 certified employers, and Virginia Colleges and Universities.

Programs include:

G.I. Bill Programs - State Approving Agency

The State Approving Agency certifies that post secondary programs of instruction meet federal G.I. Bill requirements, enabling veterans and eligible family members to pursue educational and training opportunities. Currently, more than 1,000 Virginia institutions with various programs are approved for G.I. Bill use.

Virginia Values Veterans (V3) Program

The V3 Program educates and trains employers throughout the Commonwealth on the Value of Virginia's Veterans, and helps employers connect with these personnel assets to maximize the productivity of their workforce. Over 1,000 Virginia companies are part of the V3 Program; collectively, these companies have hired over 55,000 veterans!

Virginia Transition Assistance Program (VTAP)

Social Services

You're Headed Home!

Are you worried about returning to drug use?

If so, Medication-Assisted Treatment may be right for you!

**What is
Medication-Assisted
Treatment?**

Medication-Assisted Treatment, or MAT, is a safe tool to help you stop using opioids like prescription pain medication and heroin. It is the use of medication and behavioral treatment to help you achieve recovery.

**Are there different
types of MAT?**

There are three types of MAT

- Suboxone and Methadone help ease opioid and heroin withdrawal symptoms and stop cravings.
- Vivitrol helps block cravings and prevent relapse after you are clean.

**How do I decide what
type of MAT might be
right for me?**

A healthcare provider can help you make that decision. Each medication has advantages and disadvantages.

**Where do I go
to get MAT?**

First, contact your District Probation and Parole Officer who can help you access MAT or other resources. Due to the COVID-19 pandemic, some services are being offered through telemedicine.

What is Telemedicine?

Telemedicine is the delivery of clinical services, like doctor consultations or mental health evaluations, through digital services such as phone apps, websites, or phone calls.

**I'm not interested in
MAT, but still want help.
What other options are
there?**

Recovery Residence: A Housing Option

Do you struggle with substance abuse disorders alone or in combination with a mental illness? One place you may want to apply to live is in a recovery residence. Please read further for more details on recovery residences.

What is a recovery residence?

A recovery residence is a housing facility that provides alcohol-free and illicit-drug-free housing to individuals with substance abuse disorders and individuals with co-occurring mental illnesses and substance abuse disorders that does not include clinical treatment services.

What does this mean for me in Virginia?

In Virginia there are two types of recovery residences. Each type operates a bit differently. The two types are Oxford House and Virginia Association of Recovery Residences (VARR for short).

How an Oxford House operates:

- Democratic and self-governed (each house is independent of another house in relation to rules, etc.)
- Gender-specific homes
- No time limit on residency
- No resident staff manage the individual houses
- Staff Outreach Workers provide Technical Assistance for a Region

How a VARR House operates:

- Each house operates differently depending on its Level
 - Level Two Houses are monitored and:
 - Offer involvement in self-help services and peer-run groups
 - Have at least one resident staff
 - Level Three Houses are supervised and:
 - Offer in-house service hours and life skills development
 - Have a facility manager and certified staff or case managers
 - Level Four Houses are service providers and:
 - Offer in-house clinical services and programming
 - Have credentialed staff

Where are the closest recovery residences to me?

Recovery residences are listed on the Department of Behavioral Health and Developmental Services (DBHDS) Office of Recovery Service's website (<https://dbhds.virginia.gov/office-of-recovery-services/recovery-residences/>).

Who do I contact if I want to apply to live in a recovery residence?

If choosing an Oxford House, contact the individual house directly to begin the application/intake process. Visit their website at <https://www.vaoxfordhouse.org/> for vacancy and housing information.

To access a VARR House, contact VARR directly at: 804-593-1360. If currently on VADOC Probation or Parole, indicate this information to ensure available resources are allocated. Additional VARR information can be found at: <https://varronline.org/>.

COMMUNITY RESIDENTIAL PROGRAM (CRP):

ANOTHER ALTERNATE HOUSING OPTION

The Community Residential Programs (CRP) are available to all eligible Inmates, Probationers, and Parolees. If you are already in the community and your current residence is not conducive to your success while on Probation/Parole supervision, ask your Probation Officer about the Community Residential Program.

What are community residential programs?

Any group home, halfway house, or other physically unrestricting facility used for the housing, treatment, or care of adult Probationers/Parolees. The goal of the Community Residential Program is to provide a seamless transition to the community or while in the community, regardless if the elements of a stable home and family support are not readily available.

What is the benefit of the community residential programs?

Participants receive supervised housing for up to 90 days, with a possible extension of stay up to six months. CRPs provide life skills, financial assistance, assistance with transportation, employment coaching, referrals for educational assistance, medical assistance, basic counseling, substance abuse education, job placement, discharge planning, group/individual counseling, medical health, mental health services, and offer random urinalysis testing.

Eligibility:

Inmates being released without a viable home plan, Probationers/Parolees who are already in the community and do not have a pattern of violence and are mentally and physically able to meet all the facilities criteria, can be admitted to the program.

How can I get into the community residential program?

Ask your Counselor or Probation Officer about availability. All Referrals for the Community Residential Programs bed utilization must come from a DOC Employee (Counselor, Probation/Parole Officer, or Community Reentry Specialist). Placement can be made to any Community Residential Program regardless of the jurisdiction, crime, and availability in the Central, Eastern, and Western regions.

The Virginia Department of Corrections has a partnership with 13 Community Residential Program (CRP) Vendors, spanning 17 houses throughout the state. There are 265 beds throughout the state that will accommodate men or women –including those with a history of violent crimes or sex offenses.

FEDERAL FIDELITY BONDING PROGRAM

In 1966, the U.S. Department of Labor (USDOL) created the Federal Bonding Program (FBP) as an employer job-hire incentive that guaranteed the job honesty of at-risk job seekers. Federal Fidelity Bond insurance is issued free-of-charge to employers and enables the delivery of bonding services as a unique job placement tool to assist persons with prior criminal convictions. The bonds are issued in increments of \$5,000 to employers at no cost for six months against employee dishonesty or theft for the selected employee. This bond is immediately available with no paperwork.

<http://www.bonds4jobs.com/>

Why is it needed in Virginia?

Each year, in the state of Virginia, approximately 13,000 people are released from the prison system. One major challenge that they face is reentry into the current labor market. Employers view these job seekers as being "at-risk" and potentially untrustworthy workers. As a result, these job seekers are routinely denied employment.

**Win/Win Situation for the
employer and job seeker**

Who is Eligible?

Any job seeker, of legal working age in Virginia, who has a prior conviction - felony, misdemeanor, federal, state, or juvenile. This also includes those convicted who did not serve any time.

How successful is the program?
