AUDIT FINDINGS

Narrative:

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-audit, on-site audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Virginia Department of Corrections contracted with PREA Auditors of America, 14506 Lakeside View Way, Cypress, TX, 77429 for Prison Rape Elimination Act audit services of the Wise Correctional Unit. The Auditor has been certified by the United States Department of Justice to conduct PREA audits of adult facilities. The purpose of this audit was to determine the Wise Correctional Unit's level of compliance with standards required by the Prison Rape Elimination Act of 2003. This is the third Prison Rape Elimination Act audit of the Virginia Department of Corrections' Wise Correctional Unit. The facility was last audited in May 2018.

The Auditor sent a notice by email to the agency's Regional PREA/ADA Analyst on April 7, 2021. The notice contained information and an address, informing offenders how to confidentially contact the Auditor prior to arriving on site. This notice was emailed in an English and Spanish version. The notice informed the offender population their communications to the Auditor's address would be treated as confidential correspondence by facility staff. The notice required an agency representative's name and date upon posting the notice in areas throughout the facility. While touring the facility the Auditor observed all notices were posted on April 9, 2021 in offender housing units by a facility staff member. The Auditor received no correspondence from offenders before arriving at the facility. No offender specifically requested to speak with the Auditor during the onsite visit.

The Auditor received the Wise Correctional Unit's completed Pre-Audit Questionnaire through the Online Audit System (OAS). The Pre-Audit Questionnaire was completed and submitted to the OAS on March 16, 2021 by the Regional PREA/ADA Analyst. Once received, the Auditor began a pre-audit review of the material. The information sent by the regional analyst included; but was not limited to: annual reports, policies, procedures, organizational charts, forms, training materials, educational materials, staffing plan, population reports, Memorandums of Understanding, copies from offender medical and central records, contracts, and handbooks.

Once a contract between PREA Auditors of America and the VADOC was signed, the Auditor communicated with the Regional PREA/ADA Analyst through email. Prior to arriving on site, the Auditor selected offenders for interview and requested offender records of those offenders. Communications with the analyst occurred through email. The Regional PREA/ADA Analyst maintained communications with the Auditor and responded to the Auditor's questions, comments, and/or concerns in a timely manner. The Auditor maintained communications with the Regional PREA/ADA Analyst prior to arriving on site and after leaving the facility.

The Auditor reviewed the agency's Memorandum of Understanding with the Virginia Sexual and Domestic Violence Action Alliance (VSDVAA). The agreement provides emotional support services for offender victims of sexual abuse. The Auditor familiarized himself with the Memorandum of Understanding and communicated through telephone with a victim advocate from the VSDVAA. Details of the telephone interview are provided in the applicable sections within this report.

The Auditor observed the facility maintains an agreement with the Ballad Health Russell County Hospital for forensic evidence collection. The SANE reports to the facility to conduct the examination. The Auditor contacted a Sexual Assault Nurse Examiner (SANE) by telephone. The Auditor discussed the specifics of forensic services offered to offender victims of sexual abuse. The telephone interview provided an understanding of the level and scope of services provided to victims of sexual abuse. Details of the telephone interview are provided in the applicable sections of this report.

The Auditor conducted a review of the Virginia Department of Corrections website (<https://vadoc.virginia.gov/>). The website includes a link to access the agency's published Prison Rape Elimination Act information. The website includes the agency's zero-tolerance policy and investigative information, PREA audit reports, PREA reporting information, PREA handout, contact information and annual reports. The agency provides the public access to its Prison Rape Elimination Act policy. The Auditor arrived at the Wise Correctional Unit the morning of May 4, 2021. A meeting with key personnel was held by the Auditor prior to beginning the onsite portion of the audit. The following personnel were in attendance:

- Superintendent - Dennis Collins
- Major - Delmar Tate
- Regional Manager - Jessica King
- Regional Operations Officer - Misty Bishop
- Western Regional PREA/ADA Analyst and PREA Coordinator - Tammy Barbetto
- Lieutenant - Paul Payne
- PREA Compliance Manager - Brandon Elam
- Counselor - Kim Diets
- Counselor - Clay Clark

The Auditor introduced himself and explained the audit process with key staff. After the briefing, the Auditor was offered a tour of the facility. The Auditor was accompanied by the group on the facility tour. The Auditor chose not to conduct informal interviews during the tour to mitigate the risk of COVID-19. The group accompanied the Auditor through all areas inside and outside the secure perimeter of the facility. After completion of the tour the Auditor was provided a private area to conduct interviews and review documentation.

Facility staff allowed the Auditor full access to all areas in the Wise Correctional Unit. The tour included visits to all buildings outside the secure perimeter, administration, visitation, classroom, recreation area, commissary, library, medical, laundry room, kitchen and all offender housing units. During the tour the Auditor was observing for blind spots, opposite gender announcements, the overall level of supervision of the offender population, staff interactions with the population and camera and mirror placements within the facility. Observations were made of PREA posters and other PREA related materials posted throughout the facility.

While touring the facility the Auditor observed staff performing security rounds, interacting with the offender population, foodservice operations, offenders working in various areas and staff making opposite gender announcements. The Auditor observed offenders inside and outside of housing units. All offender restrooms and shower areas were observed to ensure offenders could utilize the restroom, change clothing and shower without staff of the opposite gender observing the offenders fully naked.

The Auditor conducted a review of supportive documentation provided by the Regional PREA/ADA Analyst and PREA Compliance Manager. Supportive documentation included, but was not limited to,

policies and procedures, staffing plan, handbooks, brochures, training records, employee records, medical records, classification records, and logbooks. Supportive documentation was reviewed to determine the facility's level of compliance in prevention, detection, and response to sexual abuse and sexual harassment, training and education, risk screening, reporting, investigations, offender discipline, medical and mental health care, and data collection, review and reporting.

In addition to the records provided in the Online Audit System, the Auditor requested the supportive records of each offender selected for interviews with the Auditor. The Auditor requested 16 randomly chosen offender records, all staff, contractor and volunteer training records, 10 randomly chosen HR records, 2 contractor records and 10 volunteer records. There were no offenders incarcerated during the previous 12 months who met the targeted criteria for the Auditor to interview or review files. The Auditor requested additional offender records to review offender education, risk screenings, and reassessments. At the time of the audit the facility had two contractors and no volunteers authorized to perform services in the facility.

Formal interviews were conducted with randomly chosen offenders. The facility provided a private office for the Auditor to conduct interviews. The office did not have audio monitoring capabilities and was located where staff and other offenders were unable to observe or overhear the information exchanged between the Auditor and offenders being interviewed. The auditor randomly chose 16 offenders for formal interviews. At the time of the audit there were no offenders identified as non-English speaking, blind, visually impaired, deaf or hard of hearing, gay, bisexual, transgender, intersex, prior victims, reported an allegation, known sexual abusers, mentally ill, physically disabled, cognitively disabled, or youthful.

During random interviews the Auditor discovered one offender who had previously suffered sexual abuse in the community. The offender did not report the victimization to staff during his risk screening or any other time during his incarceration. The Auditor selected 8 offenders from each of the facility's housing units for interview. Each was randomly selected from the facility's population housing roster.

Formal interviews were conducted with staff. The Auditor conducted random formal interviews with 5 staff members and specialized interviews with 13 staff members. Specialized interviews were conducted with risk screening staff, intake, medical and mental health, investigators, intermediate and higher level staff, segregation supervisor, retaliation monitor, incident review team, contractor, Human Resources, security and non-security first responders, PREA Compliance Manager and Warden. Formal staff interviews were conducted in a facility office and by telephone. The Auditor concluded the onsite portion of the audit on May 4, 2021 in an exit meeting with the following personnel in attendance:

- Superintendent - Dennis Collins
- Major - Delmar Tate
- Regional Manager - Jessica King
- Regional Operations Officer - Misty Bishop
- Western Regional PREA/ADA Analyst and PREA Coordinator - Tammy Barbetto
- PREA Compliance Manager - Brandon Elam

The Auditor informed the group the on-site portion of the audit was completed. The group was informed the Auditor needed to continue reviewing provided documentation after leaving the facility. Staff were informed the Auditor may request copies of additional documents within the coming weeks. The Auditor informed the group he would be conducting a telephone interview with several other staff and the SIU investigator after leaving the facility. The group was informed staff and offenders were respectful to the

Auditor while on site. The offender population appeared well educated and facility staff appeared well trained. The Auditor informed the group there were no immediate findings while on site. The group was informed facility operations appeared well managed, the population felt safe and had confidence in the facility's staff. The group was informed the Auditor received no complaints from the population that was interviewed.

On the first day of the audit there were 87 adult male offenders incarcerated at the Wise Correctional Unit.

AUDIT FINDINGS

Facility Characteristics:

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate or resident population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Wise Correctional Unit (WCU) is located in Coeburn, Virginia (Wise County). The facility is an approximate 1 hour and 15 minute drive north from Bristol, Tennessee and 30 minutes east of the Virginia/Kentucky state lines. The facility is located in western Virginia in the Appalachian Mountains. The WCU is a small work camp facility. The VADOC facility sits on 37 acres of land and opened in 1964. The rated capacity is 116 level 1 (low) male offenders. The facility is surrounded by a single 12 foot security fence, topped with razor wire. There are two towers that monitor the perimeter. The towers are not manned by the facility.

There are 23 buildings on the 37 acre property, most of which are exterior to the secure perimeter. The facility has 2 housing units on the main level of the building. The interior of each housing unit is identical in design. After walking into the secure entrance, both housing units are separated by a common area with the officer's desk. From the common area, each unit is visible to the rear of the unit. Unit restrooms are positioned where staff cannot see into them from the common area. Restroom access is blocked by a swinging style door. Each housing unit is single story and open dormitory in design. The housing unit houses up to 58 offenders in bunked beds. There are no showers in either housing unit. Showers are located in the basement area. The Auditor observed PREA materials posted in each housing unit. Offenders have access to water fountains, kiosks, tables, chairs, microwave, telephones and televisions in the dayroom. Each housing unit is monitored by cameras. Cameras are not positioned so the viewer can see into the restroom.

The facility has two cells beyond the common area. The cells have a single bed with toilet and sink inside. There are no cameras located inside of the cells. Staff reported the holding cells are rarely used by the facility. Offenders in the holding cell are escorted to the basement for showers. Supervision in the holding cells is conducted by twice hourly staff rounds.

The kitchen has a dining hall where offenders eat meals. The dining hall is monitored by cameras and has a serving line to feed the population. The kitchen area is monitored by cameras. There is a staff dining hall, food prep area, cook area, dish washing area, pots and pans storage, dry storage room, tool room and a walk-in refrigerator in the kitchen. There are cameras that monitor the general kitchen area and dry storage room. Food service operations are performed by VADOC personnel with the assistance of offenders.

There is a small laundry room adjacent to the kitchen area. The laundry room has 2 washers and 2 dryers. One offender performs laundry services for the facility. The facility installed a mirror so staff can view behind the equipment in the room. The Commissary is located in the basement beneath the main level.

The facility's medical services are provided by a Virginia Department of Corrections nurse. The WCU contracts with an outside Physician. Medical services are provided Monday through Friday during normal business hours. Both the nurse and physician are on call during their off hours. The small medical area had an exam/treatment room in the nurses office. The office is located in the basement.

Offenders can participate in recreational activities in the basement. There are two recreational areas in the basement. One area has weight lifting and exercise equipment while the other has tables, chairs, telephones, kiosk, foosball, pingpong, washer, dryer and a video visitation area. There is a restroom with a swinging door with individual stalls. The facility's showers are located at the rear of the recreational area. The entrance to the showers is blocked by "barn" style doors. There are cameras that monitor offender activity in the recreation areas. None of the cameras view into the restroom or shower areas. The recreation area has an area where offenders perform barber services to the population.

The facility's library is located in the basement. There is a camera that monitors the library. Legal library services are conducted on one computer in the library. The facility has one classroom in the basement area. The classroom is monitored by cameras.

The facility has a contact visitation area. There is a restroom with locking doors that are controlled by staff. Cameras monitor activity in the visitation area. Since the onset of COVID-19 the facility utilizes the contact visitation area to house newly arriving offenders. The facility placed 10 beds in the area. There is a television, water fountain and microwave in the areas for offenders. Offenders utilize the showers in the basement at times when other offenders are not allowed in the basement.

AUDIT FINDINGS

Summary of Audit Findings:

The OAS will automatically calculate the number of standards exceeded, number of standards met, and the number of standards not met based on the auditor's compliance determinations. If relevant, the auditor should provide the list of standards exceeded and/or the list of standards not met (e.g. Standards Exceeded: 115.xx, 115.xx..., Standards Not Met: 115.yy, 115.yy). Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Number of standards exceeded:	1
Number of standards met:	44
Number of standards not met:	0

The Auditor found the Virginia Department of Corrections has developed appropriate policies and procedures that aid in prevention, detection and response to sexual abuse and sexual harassment. Those policies and procedures have been incorporated into the facility's training efforts. The Auditor found the facility's staff are well trained and retained information provided through the agency's training efforts. The Auditor formally interviewed staff and determined staff understood their responsibilities in the agency's policies and procedures regarding the prevention, detection and response towards acts of sexual abuse and sexual harassment. Facility staff, to include contractors, understand their roles as first responders. Facility staff appear to be following the policies and procedures established by the Virginia Department of Corrections.

The Auditor determined the facility has been successful in developing a zero-tolerance culture towards all forms of sexual abuse and sexual harassment. The offender population informed the Auditor that staff take incidents of sexual abuse serious in the facility. No offender interviewed by the Auditor had witnessed or heard of an incident of sexual abuse happening in the facility. The Auditor discovered the facility's command staff support its staff in the prevention, detection and response efforts. The command staff involve themselves in the day-to-day operations of the facility to keep abreast of current practices, assess current practices and make needed changes. The command staff appear to have a proactive approach towards compliance with the PREA standards to ensure the offender population, staff and the facility itself is protected from acts of sexual abuse and sexual harassment. Supervisors and command staff make unannounced rounds throughout all facility areas to deter sexual abuse and sexual harassment. Supervisors are touring all locations outside of the secure perimeter and logging the round in the logbook.

The facility's population was educated regarding the agency's prevention, detection and response efforts towards sexual abuse and sexual harassment. The population interviewed by the Auditor had retained the information provided by the facility through its educational efforts. The WCU population spoke highly of the facility's staff. The Auditor was informed the staff are professional and treat the population with respect. The population are confident in staff's abilities to maintain their safety in the facility. The Auditor observed interactions between staff and offenders while touring the facility. It appears the staff have a professional relationship with the population. The Auditor determined the facility is providing written information and effective comprehensive education to each offender upon intake. Offenders informed the Auditor they had seen the comprehensive educational video multiple times. The facility provides readily

available information to offenders by posting materials in housing units and other areas of the facility, through handouts and handbooks. Each offender interviewed felt safe in the facility. Most offenders stated the WCU is the safest place they have ever been incarcerated in.

The Auditor was provided a detailed tour of the Wise Correctional Unit and observed staff and contractors interacting professionally with the population. A review of files and other documents revealed facility personnel are documenting actions in accordance with the VADOC policies and procedures related to sexual abuse and sexual harassment. Formal interviews with staff revealed they are knowledgeable in the policies and procedures to prevent, detect and respond to incidents of sexual abuse and sexual harassment. Each staff member appeared knowledgeable in their required duties as stipulated in the facility's Coordinated Response Plan. Although staff have not had to respond to an incident of sexual abuse, the Auditor feels confident staff understands their roles in the event needed.

Staff at the WCU are appropriately screening each offender upon arrival to determine their level of risk for abusiveness or victimization. The risk screening allows the facility's Case Managers to identify such offenders and ensure they are protected from sexual abuse when determining housing, programs, education and work opportunities. The facility's medical practitioner meets with and screens each offender arriving at the Wise Correctional Unit. The Auditor observed Case Managers are conducting a reassessment of each offender's level of risk of abusiveness and victimization between 14 and 21 days of arrival, after an incident of sexual abuse, referral and/or upon receiving additional information that bears on the offender's level of risk. Case Managers understand the agency's policy to review the placement assignments of transgender and intersex offenders at least every 6 months. Although the facility has not housed a transgender or intersex offender, supervisors have developed a plan to ensure their safety in the facility and to ensure transgender and intersex offenders can shower separately from other offenders.

The agency has trained its facility investigators and criminal investigators to conduct sexual abuse and sexual harassment investigations in confinement settings. Investigators understand how to conduct appropriate investigations following an allegation of sexual abuse and sexual harassment. The facility's investigator understands the requirement to refer criminal acts of sexual abuse to the Special Investigations Unit for criminal investigation. Policy requires investigations be objective and are conducted promptly and thoroughly. Investigators are required to inform offenders of investigative determinations at the conclusion of each investigation. The facility conducts an incident review of all allegations, unless unfounded, within 30 days of the conclusion of the investigation. The incident reviews are conducted to improve any deficiencies discovered during the response and investigative practices following an incident of sexual abuse. Investigators document their actions and findings in appropriately written investigative reports. The facility has a newly appointed investigator who is scheduled to receive the VADOC training in July 2021. Until such time, the facility relies on the investigator at the Wallens Ridge Correctional Center.

The Auditor determined the facility meets all standards and recommended no formal corrective action period required to comply with any provision of the PREA standards. The facility was not required to make corrective actions to comply with any elements of the PREA standards. The Auditor made recommendations for the facility to strengthen compliance with several standards. Details of the recommendations are included in the applicable sections of this report. The Auditor determined the agency has appropriate policies, procedures and practices for the prevention planning, response planning, training and education, screening for risk of victimization and abusiveness, reporting, response following a report, investigations, discipline, medical and mental care, and data collection and review of sexual abuse and sexual harassment.

The Auditor determined the facility exceeds standard 115.11 Zero tolerance of sexual abuse and sexual harassment; PREA Coordinator. The agency employs a PREA Coordinator and Regional PREA ADA/Analyst. Each agency facility appoints a PREA Compliance Manager. The facility has successfully created a zero-tolerance culture within the population and agency staff. The Auditor felt the command and line level staff make the prevention, detection and response to sexual abuse and sexual harassment a priority within the facility. The population informed the Auditor they have not heard of or witnessed an incident of sexual abuse in the facility.

Standards

Auditor Overall Determination Definitions

- Exceeds Standard
(Substantially exceeds requirement of standard)
- Meets Standard
(substantial compliance; complies in all material ways with the stand for the relevant review period)
- Does Not Meet Standard
(requires corrective actions)

Auditor Discussion Instructions

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

115.11	Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
	Auditor Overall Determination: Exceeds Standard
	Auditor Discussion
	<p>Auditor Discussion:</p> <p>The Virginia Department of Corrections has an established policy that the Department of Corrections has a zero tolerance for all forms of sexual abuse and sexual harassment. The policy strictly prohibits any fraternization and sexual misconduct by staff, contractors, or volunteers with offenders, or between offenders. The policy also dictates Regional PREA Analysts have been designated to oversee facility efforts and to direct facility PREA activities within their assigned region. Each Facility Unit Head has designated a PREA</p>

Compliance Manager with sufficient time and authority to coordinate the facility's efforts to comply with PREA standards.

The Wise Correctional Unit has designated a Sergeant responsible for duties of the PREA Compliance Manager. The Compliance Manager reports all PREA related information and compliance issues to the Regional PREA Analyst. The Regional PREA Analyst reports directly to the PREA/ADA supervisor. The Wise Correctional Unit is located in the Western Region.

Analysis/Reasoning:

The Auditor conducted a review of the Virginia Department of Corrections' policies. The Auditor observed the agency policy includes the agency's prevention, detection and response approaches towards sexual abuse and sexual harassment of offenders. The policy includes definitions of abuse, carnal knowledge, fraternization, rape, sexual abuse, sexual assault, sexual harassment, sexual misconduct, and voyeurism. The agency's policy includes sanctions for those found to have violated the agency's sexual abuse and sexual harassment policies and procedures. The VADOC has a clear policy that states, "The DOC has a Zero Tolerance Policy that strictly prohibits any fraternization, sexual misconduct by staff, contractors, or volunteers with offenders, or between offenders [and] DOC has zero tolerance for offender-on-offender sexual harassment, assault, or abuse."

The Auditor reviewed the agency's organizational chart. The VADOC has an Organizational Chart that outlines the position of the PREA coordinator and regional PREA/ADA Analyst. Each facility appoints a PREA Compliance Manager while the PREA/ADA Analyst works with PREA Compliance Managers and oversees PREA efforts in their assigned region. The Wise Correctional Unit appointed a Sergeant as the PREA Compliance Manager. The PREA Compliance Manager reports directly to the Warden and PREA/ADA Analyst for PREA related issues or concerns. The Auditor discussed the ability to develop, implement and oversee agency PREA efforts with the PREA Compliance Manager. The Auditor determined the PREA

Compliance Manager has sufficient time and authority to oversee facility efforts to ensure compliance at the facility. The PREA/ADA Analyst responded quickly to the Auditor's questions and requests during and after the Auditor conducted the site visit. The PREA Compliance Manager and PREA/ADA Analyst are knowledgeable about the facility and requirements of the Prison Rape Elimination Act.

The PREA Coordinator is employed at a level to enact change regarding PREA related compliance. The PREA Coordinator issued an Interoffice Memorandum in August 2012 to all Wardens and Superintendents. The memorandum stipulates each designate an institutional employee as the PREA Compliance Manager. The memorandum further explains the person named as the PREA Compliance Manager should have sufficient time to act as the contact person for the Regional PREA/ADA Analyst gathering information, prepping compliance documents or coordinating changes. The PREA Coordinator informed Wardens and Superintendents the core responsibilities of the PREA Compliance Manager is to coordinate the facility's PREA efforts in conjunction with the requirements of the PREA standards as directed by the Unit Head or designee. The Auditor observed the PREA Compliance Manager is responsible for:

- Maintaining necessary documentation of all PREA standard compliance efforts;
- Act as the primary facility contact for the PREA Analyst in coordinating compliance;
- Ensure compliance with all PREA relative departmental, ACA and/or governing authorities policies and procedures; and
- Provide regular feedback to the Unit Head and Regional PREA Analyst concerning policies, procedures, or practices that are not in compliance with the PREA standards.

A review of Work Description and Performance Plans reveal the agency has outlined PREA compliance related duties and responsibilities for the PREA Coordinator, Regional PREA/ADA Analysts, and PREA Compliance Managers. The plans specify the duties at each specific level and include the employee's immediate supervisor. The Auditor clearly established the chain of command allows each staff member in a PREA related role to take steps to improve and/or address PREA related compliance efforts and/or responses.

The Auditor conducted formal interviews with offenders. Interviews with offenders reveal the population feels confident in staff's ability to respond to allegations of sexual abuse and sexual harassment. The offender population was able to articulate information to the Auditor based on the agency's education efforts. The population interviewed stated they have seen the PREA video and was provided written information upon their arrival. Multiple offenders stated they have watched the video at several VADOC facilities. The Auditor was informed they receive written information at each facility they have been housed. Offenders interviewed spoke highly of facility staff and informed the Auditor they are treated well in the facility. Each offender was asked if they felt safe in the facility. Each offender interviewed by the Auditor stated they do feel safe in the facility. Most offenders informed the Auditor the Wise Correctional Unit is the safest facility they have been house in. Offenders stated they have seen the facility's PREA posters throughout the facility.

The Auditor conducted formal interviews with randomly selected staff. The Auditor determined the facility's staff were well educated and had retained the knowledge provided through agency training. Each staff member understands the agency's policies and procedures for preventing, detecting and responding to sexual abuse and sexual harassment. Each staff

member has been trained within the previous 12 months. The agency trains its staff and contractors on an annual basis.

The agency's command staff supports subordinate staff efforts and ideas towards compliance with the Prison Rape Elimination Act. The command staff maintains an "open-door" policy. Staff interviewed by the Auditor felt confident they could discuss any issue with the command staff. The facility's command staff are required to conduct regular tours throughout the facility.

Conclusion:

The Auditor conducted a thorough review of the agency's policies, procedures, organizational charts, inter office memorandum, Employee Work Profiles and conducted interviews with staff and offenders. The Auditor determined the Virginia Department of Corrections has developed an appropriate zero-tolerance policy that includes its prevention, detection and response approaches towards allegations of sexual abuse and sexual harassment. The agency has designated appropriate staff members that have sufficient authority and effort to develop, implement and oversee agency efforts. Though not required, the agency employs several Regional PREA/ADA Analysts to supervise PREA compliance in an assigned region. The Auditor determined the VADOC exceeds the requirements of this standard. The Auditor feels the facility has fostered an effective zero-tolerance culture in the facility. The zero-tolerance culture appears to have resonated from staff through the offender population.

115.12	Contracting with other entities for the confinement of inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Auditor Discussion:</p> <p>The agency has a policy that requires all contracts for the confinement of DOC offenders include in any new contract, or contract renewal the entity's obligation to adopt and comply with Prison Rape Elimination Act standards. The policy requires contracts include a provision for contract monitoring to ensure the contractor is complying with the Prison Rape Elimination Act standards. There is a provision in the agency's policy that allows the DOC to enter into a contract with an entity that fails to comply with PREA standards only in emergency circumstances. The analyst completes a report following the site visit. The Quarterly Facility Site Visit Report requires the analyst document findings related to each PREA standard. The Virginia Department of Corrections staffs a VADOC person onsite at the Lawrenceville Correctional Center. The VADOC staff member monitors the agency's contract with GEO. The Contract Monitor is empowered to address concerns with the GEO Group's compliance with the Prison Rape Elimination Act.

The Virginia Department of Corrections houses inmates in local and regional jails across the state. There is no written agreement between the facilities and the Virginia Department of Corrections. Virginia Code allows for the confinement of VADOC inmates in those facilities. Each facility confining VADOC inmates is required to adopt and comply with the Prison Rape Elimination Act of 2003.

Conclusion:

The Auditor reviewed agency policies, contracts, contract renewals with the GEO Group, Quarterly Facility Site Visits Report, and the Lawrenceville Correctional Center's Audit Report. Agency contracts and renewals for the confinement of VADOC offenders include the requirements of this standard and require monitoring by agency personnel. The Auditor determined the Virginia Department of Corrections meets the requirements of this standard.

	Auditor Discussion
	<p>Auditor Discussion:</p> <p>The Virginia Department of Corrections has a policy that requires each facility in the agency make its best efforts to comply with a staffing plan that provides for adequate levels of staffing and video monitoring in an effort to protect offenders from sexual abuse. Agency policy requires the following considerations when determining staffing levels and video monitoring needs:</p> <ul style="list-style-type: none"> ● Generally accepted detention and correctional practices; ● Any judicial findings of inadequacy; ● Any findings of inadequacy from Federal investigative agencies; ● Any findings of inadequacy from internal or external oversight bodies; ● All components of the facility’s physical plant (including “blind-spots” or areas where staff or offenders may be isolated); ● The composition of the offender population; ● The number and placement of supervisory staff; ● Institutional programs occurring on a particular shift; ● Any applicable State or local laws, regulations, or standards; ● The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and ● Any other relevant factors. <p>Policy requires the Facility Head or designee review their existing staffing plan for the facility by January 31 of each year. When circumstances arise where the staffing plan is not complied with, the Facility Unit Head or designee must document and justify all deviations from the facility's staffing plan. If the annual review finds the facility is not staffed in accordance with the staffing plan, the facility is required to provide a comprehensive written explanation to the Regional Operations Chief and provide possible solutions to increase facility staffing levels. The comprehensive explanation must also be forwarded to the Regional PREA Analyst. Interviews with Staff

Observations

Analysis/Reasoning:

The Auditor reviewed the WCU Post Audit. The post audit is developed to ensure appropriate staffing levels are determined. The most recent post audit includes 38 full time staff. The post audit ensures there is sufficient security staffing to safely manage the offender population. The facility's staffing plan allows for 46 staff. There are 38 security and 8 non-security positions for the Wise Correctional Unit. At the time of the audit the facility had 1 vacant security and no vacant non-security positions. The January 2021 staffing plan review does not address corrective actions for vacant positions in the facility. The facility did not have vacant positions during that review period. The staffing plan review would include justifications for vacant positions in the facility, if needed.

The Warden documented the WCU had no vacancies at the time of the staffing plan review. The Warden documented the facility's adherence to the staffing plan and is confident that Wise will remain in compliance with PREA Standard 115.13. The staffing plan review includes the facility's efforts to comply with the facility's staffing plan. The facility utilizes overtime and/or a draft procedure to fill vacant posts. The review includes a statement the facility maintains an up to date draft list for security officers.

The Auditor determined the following staff to offender ratio based on the designed capacity (116) and total authorized positions (46):

- 1 staff member for every 2.5 offenders

The Auditor determined the following staff to offender ratio based on the designed capacity of the facility (116) and the authorized positions in the post audit (38):

- 1 staff member for every 3.1 offenders

The following denotes the staff to offender ratio utilizing the current number of offenders (87) and current number of staff (45):

- 1 staff member for every 1.9 offenders

The following denotes the security staff to offender ratio utilizing the current number of security staff (37) and the current number of offenders (87):

- 1 security staff member for every 2.4 offenders

The staffing plan reviewed by the Auditor includes provisions for administrative, support and security positions on all shifts in each facility area. The facility utilizes overtime through a draft procedure to ensure vacant positions are filled for each shift when needed. The facility's staffing level was maintained at 2% below capacity at the time of the audit. The security staffing level was 2% below capacity at the time of the audit.

The Wise Correctional Unit operates with two day and two night shifts. The duration of each shift is 11.5 hours. The Shift Commander has the authority to utilize overtime and/or draft staff to fill vacant positions. Each shift is staffed with male and female staff to ensure appropriate officers are available to assist with gender dysphoria offenders. Female staff must be available to search transgender and intersex offenders who have a preference form designating a female conduct their searches. The facility operates a Monday through Friday shift that works 8 hours.

The Auditor reviewed a sampling of Daily Duty Rosters from the previous 12 months. Daily Duty Rosters are completed by each Shift Commander. The Auditor observed Shift Commanders are documenting daily staff vacancies on each shift and account for the vacancies. The Shift Commander documents staff working overtime to fill vacant positions. The Shift Commander notates the reason for staff vacancies in the leave code section of the Daily Duty Roster. The Auditor observed the Daily Duty Roster includes codes for the following vacancy reasons:

- Annual Leave
- Compensation Time
- Civil Work Related
- Education Leave
- Family/Personal Leave
- Military Leave
- Other
- Public Health Emergency Leave
- Recognition Leave
- School Assistance & Volunteer Services

- Sick Family Leave
- Sick Personal Leave
- Short Term Disability
- Training
- Workers Compensation
- Leave Without Pay

The Auditor reviewed the Wise Correctional Unit's annual staffing plan review. The staffing plan review was conducted in January 2021. The most current review was signed by the Warden and sent to the Western Regional PREA/ADA Analyst and PREA Coordinator. The agency PREA Coordinator signed the Staffing Plan Review and Acknowledgment. The WCU's review includes considerations of the bulleted topics in the "Auditor Discussion" portion of this standard. The agency requires each facility conduct a review of its staffing each year by the end of January. The WCU PREA Compliance Manager participated in the facility's staffing plan review.

The Auditor conducted a formal interview with the Warden. The Auditor asked the Warden to explain the considerations when determining appropriate levels of staffing for the facility. The Warden explained the process of the annual staffing plan review in detail. The Warden's responses included the bulleted items listed above in the "Auditor Discussion" section of this standard. When asked how the facility documents the reason for non-compliance with the staffing plan, the Auditor was informed the Shift Commander documents daily deviations on the Daily Duty Rosters and the staffing plan review includes any deviations from the facility's staffing plan. The Auditor asked the Warden who participates in the post audit review. The Warden informed department heads and the Regional PREA/ADA Analyst participates and a copy is sent to the Regional Operations Chief and PREA Coordinator for consideration. The Warden stated the facility is required to conduct the annual review by the end of each January.

The Auditor reviewed a sampling of WCU unannounced rounds documented in PREA Logbooks. The sampling covered each shift from the 12 months prior to the audit. Facility Lieutenants, Captains, Major, and Superintendent each conduct unannounced rounds through all facility areas. Unannounced rounds are documented in the PREA Logbook by date and time. Each supervisor initials the logbook after including their name. The Auditor observed unannounced rounds are occurring on each shift at various times throughout the shift in all housing areas and documented in the housing unit logbook.

While touring the facility the Auditor observed staff making security rounds in housing units and support areas of the facility. Staff were present in all areas toured by the Auditor. Security personnel were observed interacting with the inmate population. The Auditor observed camera and mirror placements throughout the facility. Cameras and mirrors were strategically placed to assist in the prevention, detection and response to incidents of sexual abuse. Facility areas that are not monitored by cameras are toured by security personnel. The Auditor observed supervisors making unannounced rounds throughout various facility areas, to include housing units. The Auditor observed unannounced rounds documented in logbooks.

The Auditor conducted formal interviews with staff and supervisors. Staff were asked if supervisors conduct unannounced rounds throughout the facility. Each staff member stated supervisors do make unannounced rounds throughout the facility. Supervisors were asked if they were required to make unannounced rounds. The Auditor was informed they are required

to make at least one unannounced round in all facility areas and on each shift. Supervisors are required to make unannounced rounds throughout all areas outside the secure perimeter as well. Higher level supervisors are required to conduct one unannounced round covering each facility area during a one week period. Each supervisor was asked how they prevent staff from alerting other staff when they are making unannounced rounds. The Auditor was informed staff are prohibited by policy and post orders from announcing the rounds. Supervisors do not conduct their rounds at the same time and do not take the same route each time. Supervisors stated they do not tell any staff member when they being their unannounced round. Supervisors stated they do not have a discernable pattern when making rounds throughout the facility.

Each supervisor was asked what actions they take if discovering a staff member was caught alerting other staff when supervisors are conducting unannounced rounds. Supervisors informed the Auditor they would verbally counsel the staff member about the importance of the unannounced round. Each was asked what they would do if they caught the person a second time. Supervisors stated they would recommend formal discipline for the staff member. Each staff member interviewed was aware the VADOC has a policy prohibiting staff from alerting other staff members of supervisory rounds. No supervisor had discovered an employee alerting other employees of unannounced supervisory rounds.

The Auditor conducted formal interviews with offenders. Offenders were asked if supervisors announce their presence when entering housing units. Offenders informed the Auditor female supervisors do announce their presence as a female when entering housing units. Male supervisors do not announce their presence when entering units. The Auditor observed PREA Logbooks include a notation of opposite gender announcements for female supervisors.

Conclusion:

The Auditor concluded the facility has an adequate staffing plan to ensure the protection of offenders from sexual abuse. The staffing plan is reviewed in accordance with this standard. The Auditor reviewed policies, procedures, post audit, staffing plan, staffing plan review, Daily Duty Rosters, ADO Logbooks, Housing Unit Logbooks, interviewed staff and offenders and made observations to determine the facility meets the requirements of this standard.

Interviews with Staff

Interviews with Offenders

Analysis/Reasoning:

The Wise Correctional Unit houses male offenders. The Auditor conducted a review of facility shift rosters. The facility attempts to balance male and female staff on each shift to ensure offenders identified as transgender or intersex can be searched by a staff member of the same sex of the offender. The Auditor conducted formal interviews with offenders. Offenders were asked if they had been pat-searched or strip searched by a staff member of the opposite gender of the offender. Offenders informed the Auditor they had not been pat searched or strip searched by a female staff member.

During interviews with offenders the Auditor asked each if they had the ability to take a shower, change clothes and use the restroom without security staff of the opposite gender seeing their breast, buttocks or genitalia, unless incidental to a routine security round. Offenders informed the Auditor staff of the opposite gender announce their presence when entering housing units. The announcement allows them the opportunity to ensure they are properly dressed. The Auditor conducted formal interviews with male and female staff members. Each staff member was asked if opposite gender announcements were being made in the housing units. Each staff member informed the Auditor opposite gender announcements are being made when entering any opposite gender housing unit. Staff stated the opposite gender announcement is included in the unit's logbook. The Auditor observed opposite gender announcements documented in post logbooks. The Auditor observed each PREA Logbook includes documentation that opposite gender supervisors are announcing their presence when entering offender housing units.

The Auditor conducted formal interviews with intake personnel. The intake staff member was asked how a transgender offender is strip searched or pat searched when arriving. The staff member stated if the transgender offender has a preference form that requires a female conduct the strip search, a female staff member is called to the area to conduct the strip search and/or pat search. Intake and randomly selected personnel were asked what they would do if they could not determine the genital status of an offender. The Auditor was informed they would ask the offender, review supporting documents, or call medical personnel to make the determination.

The Auditor asked random staff how facility personnel conduct searches of transgender and intersex offenders. Transgender and intersex offenders are asked what sex staff member they prefer to conduct pat down and strip searches. The decision, if approved, is documented in the offenders file and preference form. Staff were asked if they had been trained to conduct pat-searches of transgender and intersex offenders. Staff had been provided such training. Staff were asked if they would conduct a strip search of an offender if they could not determine the offender's sex. Each staff member stated they would not conduct a strip-search

of any offender for the sole purpose of determining the offender's sex.

The Auditor reviewed the agency's In-service Trainer Outline and training attendance rosters. The outline includes procedures on how to conduct searches of transgender and intersex offenders and how to communicate with those offenders professionally. Training attendance rosters reveal staff had attended an initial training to conduct searches, including cross-gender searches, and attended training annually thereafter. New employees receive the training during their initial orientation and in the agency's training academy. The Auditor reviewed the training records of all WCU staff members. Each had been provided the training.

The Auditor conducted a detailed tour of the facility and was granted access to offender housing units and other support areas. The Auditor observed all shower and restroom areas in the facility. Showers in the facility are individual stalls and are protected from view with a 3/4 wall. Each toilet is protected from view by walls. Offenders have the ability to shower and use the restroom without security staff of the opposite gender seeing them fully naked, unless incidental to a routine security check. While touring the facility, the Auditor observed opposite gender announcements being made by female staff.

The facility has female staff to ensure a female is available to conduct pat and strip searches of offenders identified as transgender, intersex, or gender dysphoria who have been authorized to be searched by female staff. The Auditor reviewed shift assignments and discovered the facility employs both male and female staff. The Auditor was informed by supervisors the facility attempts to maintain male and female staff on each shift to ensure offenders can be searched by a staff member of the same sex as the offender.

The Auditor discussed how transgender and intersex offenders are provided an opportunity to shower separately from other offenders with supervisors. The Auditor was informed the facility would provide the transgender or intersex offender the opportunity to shower while the population was confined to their housing unit. The transgender or intersex offender would be escorted to the shower area and allowed to shower alone.

At the time of the audit there were no transgender or intersex offenders housed at the facility. No staff member had been aware of the facility ever housing a transgender or intersex offender. The facility reported no incident in which a staff member conducted a cross-gender strip search in the previous 12 months.

Conclusion:

The Auditor conducted a review of VADOC policies and procedures, training curriculum, training attendance rosters, shift assignment rosters, post logbooks, interviewed staff, offenders and made observations. The Auditor concluded the WCU staff had been appropriately trained to conduct cross-gender searches and how to make opposite gender announcements when entering housing units. Offenders have the ability to shower, change clothes and use the restroom with a level of privacy. Staff have been trained to treat transgender and intersex offenders respectfully and professionally in the facility. The Auditor determined the WCU meets the requirements of this standard.

Observations

Analysis/Reasoning:

The Auditor reviewed the agency's Zero Tolerance for Sexual Abuse and Sexual Harassment handout for offenders. Each offender receives a copy upon arrival at the WCU. The handout is written in English, Spanish and maintained for the hearing impaired. The hearing impaired copy includes different avenues for reporting through the telephone. The facility maintains PREA posters written in English and Spanish. Facility staff will read the PREA information provided during intake to offenders who are blind or have low vision or who cannot otherwise obtain the information. The facility maintains its Offender Handbook in Braille for offenders who can read in Braille. Offenders who are deaf or hard of hearing can read the written information. The facility's PREA video is both verbal and closed captioned for those who are either deaf or blind. The facility maintains the PREA video in English and Spanish. In the event the facility receives an offender with an intellectual or cognitive disability, a staff member conducts an individual session with the offender to ensure the offender receives an understanding of the agency's PREA information and comprehensive education.

The WCU Offender Orientation Handbook includes the following information:

- Reporting
- Zero Tolerance
- Emotional Support Services
- Grievances
- PREA Compliance Manager Information
- Zero Tolerance for Sexual Abuse and Sexual Harassment Brochure

Offenders who cannot read English or Spanish can benefit from the facility's PREA information through the use of the language line service. The agency maintains a contract with a provider for telephonic translation services. When the agency cannot provide a staff interpreter, staff read the information to the interpreter who translates the information to the offender. Each staff member interviewed was asked if the facility relies on offender interpreters or readers. Staff informed the Auditor they do not rely on offender interpreters or readers.

The facility's comprehensive educational video is maintained on a CD and titled, "PREA: What You Need to Know." The Auditor reviewed the comprehensive educational video. The video is closed captioned for the deaf or hard of hearing. Offenders who are blind or have low vision can hear the information being played through the video. Comprehensive education is provided through televisions in the intake area. The agency ensures offenders view the video during the booking process. Offenders who cannot otherwise benefit from the comprehensive education attend a one-on-one session with a facility staff member.

Each offender entering the facility is provided a written copy of the Zero Tolerance for Sexual Abuse and Sexual Harassment and provided the comprehensive education within 10 days of arriving at the facility. Offenders are required to sign receipt of the written information and comprehensive educational session. The information and education is provided during booking. Each offender is provided a written copy of the Offender Handbook during the booking process. Offenders sign a Preventing Sexual Abuse and Assault Training Acknowledgement form for the information and education. Each offender entering the facility is

provided an orientation packet that includes the agency's zero-tolerance information.

There were no offenders identified as Limited English Proficient or blind at the time of the audit. The Auditor verified the facility has a contract for interpretive services to communicate with offenders identified as Limited English Proficient. The facility provides information and education in a manner LEP and blind offenders understand and benefit. Each offender is provided an opportunity to ask questions regarding the written material and comprehensive education.

The Auditor reviewed the educational records of 29 offenders. All 29 offenders had signed an Acknowledgement of Preventing Sexual Abuse and Sexual Assault Training denoting their attendance and receipt of the information. During interviews with offenders the Auditor determined offenders have seen the comprehensive educational video after processing into the agency. Each offender signs the Acknowledgement of Preventing Sexual Abuse and Sexual Assault Training two times. Offenders sign after receiving the written information during booking and after receiving the comprehensive educational video.

The Auditor conducted an interview with the staff responsible for conducting orientations with offenders. The Auditor asked the staff member to explain how blind and deaf offenders benefit from the agency's information and education. The staff member reads the written PREA information to blind offenders. Blind offenders can benefit from the educational video as it is maintained in audio. Deaf offenders can read the closed captioning on the video and information is provided in written format. Staff informed the Auditor illiterate offenders can hear the video and when staff read the written information to them. The Auditor was informed staff use the language line when dealing with non-English speaking offenders and a staff interpreter is unavailable. The Auditor asked how staff communicate with offenders who only understand sign language. The agency maintains a contract for Sign Language services. Each staff member was asked if offender interpreters or readers are utilized by facility staff. Each stated the facility does not rely on offender interpreters or readers.

At the time of the audit there were no offenders identified as Limited English Proficient, blind, visually impaired, deaf, hard of hearing, physically or cognitively disabled. The facility has the appropriate policies and practices in place in the event the facility receives an offender identified as such. The Auditor reviewed the records of 6 agency staff who have received training titled, "DOC - Understanding and Interacting with Deaf and Hard of Hearing Offenders, 2020." These staff work with deaf offenders to ensure they benefit from the agency's PREA information and education.

The Auditor conducted a detailed tour of the Wise Correctional Unit. Observations were made of readily available sexual abuse and sexual harassment materials and PREA posters throughout the facility, including each housing unit and service areas. All posters and posted materials were written in English and Spanish. During interviews with offenders the Auditor discovered all offenders were aware of the posted materials. All offenders informed the Auditor they received the PREA material during booking, watched a video, received an Offender Orientation Handbook and participated in an in-person orientation conducted by a facility staff member. Each was provided an opportunity to ask questions related to the facility's comprehensive educational session.

Conclusion:

The Auditor concluded the agency provides information that ensures equal opportunity to offenders who are disabled. The facility takes reasonable steps to ensure meaningful access to all aspects of the facility's efforts to prevent, detect, and respond to sexual abuse and sexual harassment are provided to offenders who are Limited English proficient and those who are disabled. The Auditor conducted a thorough review of the agency's policies, procedures, Offender Orientation Handbook, Zero Tolerance for Sexual Abuse and Sexual Harassment handout, comprehensive educational video, interpretive services contracts, offender records, training records, conducted interviews with staff, offenders and made observations to determine the agency meets the requirements of this standard.

Employment Application

Employee Self Assessment Form

Criminal History Background Tracking Mechanism

Interviews with Staff

Analysis/Reasoning:

The Auditor reviewed the facility's Background Investigation Questionnaire form. The form is completed by all staff and contractors prior to employment or enlisting services and prior to promotions. The form asks the staff member or contractor the following questions:

- "Have you ever engaged or attempted to engage in sexual abuse/sexual harassment in an institutional setting, for example, prison, jail, juvenile facility;
- Have you been convicted of engaging or attempting to engage in sexual activity/sexual abuse/sexual harassment in the community where there was use of force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; and
- Have you been civilly or administratively adjudicated for engaging in sexual activity/sexual abuse/sexual harassment in the community where there was use of force (as described above)?"

The Background Investigation Questionnaire asks candidates, "Did you resign in lieu of termination or were you terminated from this agency?" This question is asked of candidates who have worked or volunteered for the Department of Corrections or any other government agency.

The Auditor reviewed the agency's employment application. Each candidate is required to complete an application. Each current employee seeking promotion is required to complete the application. The application asks candidates the following questions:

- "Have you engaged in sexual abuse in an institutional setting where the term "institutional" refers to any facility or institution: (A) which is owned, operated, managed by, or provides services on behalf of any State or political subdivision of a State; and (B) which is : (i) for persons who are mentally ill, disabled, or retarded, or chronically ill or handicapped; (ii) a jail, prison, or other correctional facility; (iii) a pretrial detention facility; (iv) for juveniles; (v) providing skilled nursing, intermediate or long-term care, or custodial or residential care;
- Have you been convicted or engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse;
- Have you been civilly or administratively adjudicated for having engaged in the sexual activity described in questions #1 and/or #2 , above?"

The Auditor conducted an interview with the facility's Human Resource staff member. The Auditor was informed each candidate is asked to complete the Background Investigation Questionnaire prior to their interview. The Auditor asked how the facility considers acts of sexual abuse and sexual harassment of those being promoted. The Human Resource staff member stated each is required to complete an application and Background Investigation Questionnaire when applying for a promotional opportunity or a new position. The Auditor asked if such is captured for contractors and if so, when. The Auditor was informed contractors are required to complete the Background Investigation Questionnaire and undergo the background records check as all employees do. The Auditor was asked if the facility provides information related to sexual abuse investigations and resignations to institutional employers upon request. The Auditor was informed HR at the Wallens Ridge Correctional Center provides that information upon request with a signed release form. Complete employee records are maintained by HR at the Wallens Ridge Correctional Center. The Human Resource staff member informed the Auditor the agency uses an optional Employee Self-Assessment that considers sexual abuse acts.

The Auditor reviewed the Employee Self-Assessment form. The following questions are asked on the assessment:

- "Have you ever engaged or attempted to engage in sexual abuse in an institutional setting;
- Have you been convicted of engaging or attempting to engage in sexual activity in the community where there was use of force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; and
- Have you been civilly or administratively adjudicated for engaging in sexual activity in the community where there was use of force (as described in 2)?"

The Auditor conducted a review of all employee/contractor background records. The facility tracks background record checks on a spreadsheet. The Auditor conducted a review of the tracking spreadsheet. The spreadsheet includes the person's name, position, VCIN effective date and reason for the VCIN. The agency performs a background records check through the Virginia Criminal Information Network and National Crime Information Center. The spreadsheet reveals the facility is conducting a VCIN of all persons at least every five years, prior to promotions and prior to hiring or enlisting the services of a contractor.

The Auditor reviewed the employee personnel files of 10 staff and 2 contract personnel. Each employee/contractor had completed an employment application and Background Investigation Questionnaire where the employee answered the questions related to sexual abuse. Each who had been employed for more than one year had completed additional Sexual Misconduct Information Release forms for each year of employment. There were no employees who had been promoted during this audit cycle. Most employees at the facility are long term staff members. The Auditor was informed the facility has not conducted a promotion in "years."

The Auditor conducted formal interviews with staff. Staff were asked if they were aware of the criminal background records check process. Each staff was aware the facility conducts a criminal background records check at least every five years. Staff were asked when they are asked specific questions related to sexual abuse and sexual harassment. Each staff asked informed the Auditor they answer those questions before being hired, annually and prior to promotion. Staff were asked if they were aware the agency has a continuing requirement to

disclose acts of sexual abuse and sexual harassment. Each was aware of the agency requirement.

The Auditor conducted a formal interview with a contractor. The contractor was asked if he is aware the agency conducts a criminal record background check. The contractor was aware the facility conducts such checks prior to services and every five years. The Auditor asked if he was ever questioned about prior or current acts of sexual abuse or sexual harassment. The contractor stated he was asked those questions on the Background Investigation Questionnaire. The contractor stated he was required to sign the form prior to performing services. The contractor was aware the facility has a continuing affirmative duty to disclose acts of sexual harassment and sexual abuse.

Conclusion:

The Auditor concluded the Wise Correctional Unit is performing appropriate practices to identify previous acts of sexual misconduct prior to hiring staff and enlisting the services of contractors, and before promoting staff members. The Auditor conducted a thorough review of the agency's policies, procedures, employee records, contractor records, Background Investigation Questionnaire, Employment Application, Employee Self-Assessment, Criminal History Background Check Tracking Log, and interviewed staff and a contractor to determine the agency meets the requirements of this standard.

	Auditor Discussion
	<p>Auditor Discussion:</p> <p>The Virginia Department of Corrections has a policy that requires all victims of sexual abuse have access to a forensic medical examination provided by a certified Sexual Abuse Nurse Examiner. The examination is provided to the victim at no cost to the victim. The agency's policy is to attempt to make available to the victim a victim advocate from a rape crisis center. Policy states, "If a rape crisis center is not available to provide victim advocate services, the DOC must make available to provide these services a qualified staff member from a community-based organization, or a qualified agency staff member." The victim advocate, qualified staff member, or qualified community-based organization member will accompany and support the victim through the forensic medical examination process and investigatory interviews and will provide emotional support, crisis intervention, information and referrals. The Auditor reviewed the agency's policies and procedures. The agency has included the elements of this standard in its policies and procedures. The Virginia Department of Corrections conducts administrative and criminal investigations of sexual abuse and sexual harassment. All allegations of sexual abuse and sexual harassment that appear criminal in nature are reported to the Special Investigations Unit (SIU) for investigation. WCU personnel are required to preserve any crime scene until the SIU Investigator arrives to collect or process physical evidence from the scene.

The Auditor reviewed the agency's Memorandum of Understanding with the Virginia Sexual and Domestic Violence Action Alliance (VSDVAA). In addition to other stipulations, the memorandum stipulates the VSDVAA agrees to the following:

- Provide a toll-free Hotline (statewide) for reporting sexual abuse or assault to victims who desire an external method of reporting;
- Ensure confidentiality for all callers to the statewide hotline, keeping with the Action Alliance confidentiality and release of information policies. If the victim agrees to the release of information, the Action Alliance will immediately forward any report of sexual abuse or assault to the Regional PREA Analyst;
- Maintain a record of calls from DOC victims that include non-identifying demographic information, information about the violence experienced, demographic and relationship information about perpetrator, and the location of the sexual abuse or assault. The Action Alliance will provide the information quarterly by email to the DOC to support action that addresses the safety, security and medical needs of victims. DOC will be provided with information about specific victims and allegations of assault with the express permission of the victim;
- Provide confidential crisis intervention and emotional support services related to all sexual abuse or assault victims;
- Seek to link DOC victims to accompaniment services through a trained victim advocate when victims request this service. This may include participation of advocates at forensic exams, during investigations and may also include follow-up visits or communication (at facility, telephone or written) by the victim advocate;
- Ensure statewide hotline staff and Action Alliance victim advocates who provide accompaniment services to DOC victims complete the full PREA training on responsibilities to prevent, detect, monitor and report allegations and incidents of sexual abuse and sexual harassment of offenders or probationers;
- Ensure statewide hotline staff and Action Alliance victim advocates who provide accompaniment services to DOC victims complete the full PREA training on responsibilities to prevent, detect, monitor and report allegations and incidents of sexual abuse and sexual harassment of offenders or probationers; and
- Ensure all statewide hotline staff and Action Alliance victim advocates providing accompaniment services to DOC victims have been screened to ensure they do not have a history of perpetrating sexual violence. These staff and volunteers shall agree to have a criminal history record check completed through the Virginia Criminal Information Network prior to entrance into a DOC facility and will be asked to disclose relationships to individuals who are employed by or in the custody of the DOC.

The Auditor conducted a telephone interview with a victim advocate with the Virginia Sexual and Domestic Violence Action Alliance. The representative confirmed the VSDVAA provides

victim advocacy for offender victims of sexual abuse. The Auditor asked if a representative has attended a forensic examination for an offender at the Wise Correctional Unit. The advocate stated the VSDVAA has not been asked to accompany a victim from the WCU in the previous 12 months. The advocate stated if requested the advocate would also accompany the victim during investigatory interviews. The Auditor asked who contacts the VSDVAA following a sexual abuse incident. The representative stated either the hospital or facility would normally make the notification to the VSDAA. Emotional support services are provided on site or by telephone with offenders when requested. The WCU has not used a staff member to perform the services of victim advocacy.

The Auditor reviewed the contract between the Ballad Health Russell County Hospital and the Virginia Department of Corrections. The contract renewal was effective from October 2020 through September 2021. The contract provides forensic services to offender victims of sexual abuse in the Western Region. The Auditor observed the Wise Correctional Unit specified in the contract. The contract stipulates the SANE will be dispatched to the facility to conduct the examination.

The Auditor conducted a telephone interview with a Sexual Assault Nurse Examiner from the Ballad Health Russell County Hospital. The SANE explained the forensic examination is conducted at the facility. The SANE is required to report to the facility within four hours of being dispatched. The SANE explained the process of the forensic examination and the services and tests offered at the time of the examination. The Auditor asked the SANE if a victim advocate is allowed to accompany the victim during the forensic examination. The SANE informed an advocate is allowed to accompany the victim if the victim requests the accompaniment. The SANE informed the Auditor no forensic examination has been performed on a victim from the Wise Correctional Unit in the past 12 months.

The Auditor conducted formal interviews with the facility's medical practitioner. The Auditor asked if she conducts forensic examinations at the facility. The medical practitioner stated she does not conduct forensic examinations at the WCU. The Auditor was informed forensic examinations are conducted by a certified SANE who responds to the facility as required in the agency's contract. The Auditor asked when the last offender was sent for a forensic examination following an allegation of sexual abuse. The medical practitioner stated there has never been an offender from the WCU who required a forensic examination.

The Auditor conducted a formal interview with the facility investigator. The Investigator was asked to explain the process when investigating allegations of sexual abuse. The Investigator stated as soon as it is determined an act of sexual abuse requires a forensic examination, the SANE is contacted by the facility's nurse or Shift Commander. The Auditor was informed criminal investigations of sexual abuse are conducted by the VADOC Special Investigations Unit. The Auditor asked how evidence collection occurs at the facility. The Investigator explained the SIU Investigator responds to the facility and collects evidence from the crime scene and from the Sexual Abuse Nurse Examiner. The WCU staff preserve the crime scene until the SIU Investigator arrives to process and collect the evidence.

The Auditor conducted a telephone interview with a VADOC SIU Investigator. The Investigator explained he reports to the facility and collects evidence from the crime scene. The SIU investigator reports to the facility and interviews the alleged victim and receives the evidence collected by the SANE. The Auditor asked if a victim advocate is allowed to be present when the alleged victim is questioned. The Auditor was informed if the alleged victim requests the

presence of the victim advocate the Investigator allows his/her presence during the questioning. The Auditor asked the Investigator when the last time he reported to the Wise Correctional Unit following an alleged sexual abuse incident. The Auditor was informed the Investigator has not had to respond to the facility for such. Each VADOC Special Investigations Unit Investigator is a sworn law enforcement officer in the Commonwealth of Virginia. Each has the authority to conduct criminal investigations and follow a uniformed evidence protocol for evidence collection.

The facility reported no instance that required the SANE be contacted for a forensic examination.

Conclusion:

The agency is utilizing an appropriate uniformed evidence protocol to maximize the potential for usable physical evidence. The facility makes victim advocates available to victims of sexual abuse and ensures access to a forensic examination performed by a certified Sexual Abuse Nurse Examiner. The Auditor reviewed the VADOC policies, procedures, contract, and conducted interviews with staff, SANE, and Victim Advocate. The Auditor determined the agency meets the requirements of this standard.

The Auditor conducted a formal interview with the facility's Sexual Abuse Investigator. The Auditor asked the Investigator to explain the process once an allegation appears to be criminal in nature. The Auditor was informed the SIU Investigator immediately notifies the SIU to conduct a criminal investigation. The referral to the SIU is documented by the Investigator. The WCU has one staff member who has received partial training to conduct administrative investigations in the facility. The agency has trained nineteen (19) SIU Investigators. The SIU investigates criminal acts of sexual abuse that occur in agency facilities. The facility's newly appointed investigator is scheduled to attend the agency's investigative class in July 2021. If the facility receives an allegation the investigator from the Wallens Ridge Correctional Center will respond to the facility to conduct the investigation. The WCU Investigator has referred no allegations to the SIU for a criminal investigation in the previous 12 months.

The Auditor conducted a telephone interview with an agency SIU Investigator. The Auditor asked the investigator to explain his authority in conducting criminal investigations. The Investigator explained he is a certified law enforcement officer in the Commonwealth of Virginia. The investigator has the legal authority to arrest and place criminal charges on persons inside and outside the Wise Correctional Unit. The Investigator explained he reports to the facility when notified by the facility Investigator to conduct an investigation. If the SIU Investigator determines the act may not be prosecutable it is referred back to the facility Investigator for an administrative investigation. The Investigator explained he consults with the Commonwealth's Attorney for prosecutorial efforts.

The facility reported no allegations of sexual abuse or sexual harassment were received within the previous 12 months.

The Auditor conducted formal interviews with offenders. Offenders were asked if they had reported, heard of or witnessed an incident of sexual abuse or sexual harassment in the facility. None had observed or reported such. Offenders stated incidents such as those do not occur in the facility.

No department of justice component is responsible for conducting administrative or criminal investigations of sexual abuse or sexual harassment in the Wise Correctional Unit.

Conclusion:

The Auditor concluded the Wise Correctional Unit investigator understands to refer criminal allegations of sexual abuse and sexual harassment to the SIU office for criminal investigation. The SIU has the legal authority to conduct criminal investigations in the facility. Facility staff understands the requirement to report all allegations of sexual abuse and sexual harassment to the facility investigator. After reviewing agency policies, procedures, website, interviewing staff and offenders, the Auditor determined the facility meets the requirements of this standard.

Interviews with Staff

Interviews with Offenders

Analysis/Reasoning:

The Auditor reviewed the agency's training curriculum utilized to train staff. The VADOC curriculum includes all training topics as bulleted above. The VADOC instructor teaches from the Trainer Outline to train all staff. Each new staff member is provided the training during their orientation when they are initially hired and at the Correctional Officer Basic class in the Training Academy. The facility provides PREA training to all staff annually. The training provided during the basic academy is not tailored to any gender as the agency houses male and female offenders. The Wise Correctional Unit houses male offenders. Each employee is provided a participant outline during training. All VADOC PREA classes require the participant to pass a test upon completion of the class.

The facility reported there are 46 staff currently employed on the pre-audit questionnaire. The Auditor reviewed the WCU staff training records. Training records reveal all staff are provided the PREA training. The Auditor reviewed training records for the previous 12 month period. All staff had been provided annual in-service training and signed a Prison Rape Elimination Act (PREA) Training Acknowledgement Form. The agency's acknowledgement form requires staff sign receipt and understanding of the following:

- The Department's Zero Tolerance Policy for sexual abuse and sexual harassment;
- How to fulfill responsibilities under agency sexual abuse and sexual harassment prevention, detection, reporting, and response policies and procedures;
- An offender's right to be free from sexual abuse and sexual harassment;
- The right of offenders and employees to be free from retaliation for reporting sexual abuse and sexual harassment;
- The dynamics of sexual abuse and sexual harassment in confinement;
- The common reactions of sexual abuse and sexual harassment victims;
- How to detect and respond to signs of threatened and actual sexual abuse;
- How to avoid inappropriate relationships with offenders;
- How to communicate effectively and professionally with offenders, including lesbian, gay, bisexual, transgender, intersex, or gender nonconforming offenders; and
- How to comply with relevant laws related to mandatory reporting of sexual abuse to outside authorities.

The acknowledgement form states, "By my signature, I am acknowledging that I understand the training provided and that the Virginia Department of Corrections has zero-tolerance for sexual abuse or sexual harassment between offenders and between staff/contractors/volunteers and offenders. I agree to abide by that policy. I likewise have been made aware of my requirement to report any known instances or suspicions of sexual abuse or harassment of offenders." Employees are required to print and sign their name, date and the trainer signs the form as a witness. The Auditor reviewed the test each participant is required to pass at the completion of training. The test is a twenty question test that includes true or false, multiple choice and fill in the blank questions from various sections of the agency's training.

The PREA Coordinator and Regional PREA/ADA Analysts create a monthly PREA Newsletter. The newsletter is issued to all VADOC personnel on a monthly basis. Each newsletter includes a selection of VADOC information and PREA standards. The newsletter is used to remind staff of standards and VADOC policies regarding compliance with those standards.

The Auditor conducted formal interviews with specialized and randomly selected staff. Each was asked about the training provided by the agency. All staff interviewed had been provided the training and informed the Auditor they receive training annually. The Auditor asked each to explain the topics provided by the agency during their annual training. Staff were able to articulate the above listed topics were provided during their trainings. The Auditor determined staff were knowledgeable and retained the information provided during the training. Each staff member understands the agency's requirements towards the response to acts of sexual abuse and sexual harassment.

The Auditor conducted formal interviews with randomly selected offenders. The offenders interviewed stated staff take any incidents inside the facility seriously. Offenders have confidence in staff's abilities to maintain their protection and to respond to incidents of sexual abuse and sexual harassment. The offenders collective responses allowed the Auditor to determine staff respond to the population as they have been appropriately trained to do. The offender population appear well educated in the agency's policies and procedures related to the prevention, detection and response towards sexual abuse and sexual harassment.

Conclusion:

The Auditor concluded the facility has appropriately trained its staff and documented the training as required by this standard. Facility staff interviewed by the Auditor were knowledgeable in the training topics mandated in PREA standard 115.31. The Auditor reviewed agency policy, procedures, training curriculum, attendance rosters, tests, newsletters, conducted interviews with staff and offenders and determined the facility meets the requirements of this standard.

PREA Training Acknowledgement

Interview with Contractors

Analysis/Reasoning:

The Auditor reviewed the agency's Volunteer and Contractor Trainer Outline. A PowerPoint Presentation is utilized to provide in-person training to each contractor and volunteer. The PowerPoint Presentation coincides with the trainer outline. The PowerPoint Presentation and trainer outline includes the following sections:

- What is PREA;
- The Nine Purposes of PREA;
- OP 038.3 Sexually Abusive Behavior Prevention and Intervention;
- Zero Tolerance Policy;
- OP 130.1 Rules of Conduct Governing Employees Relationships with Offenders;
- Myths;
- The Dynamics of Sexual Abuse and Sexual Harassment in Confinement;
- Common Reactions of Sexual Abuse and Sexual Harassment Victims;
- Detection Strategies;
- Avoiding Inappropriate Relationships with Offenders; and
- Summary.

The Auditor reviewed the agency's PowerPoint Presentation utilized to train contractors and volunteers. The following information was observed in the presentation:

- What is PREA;
- Purpose of PREA;
- How Does PREA Affect You;
- OP 135.2 Rules of Conduct Governing Employees Relationships with Offenders;
- PREA and Fraternalization;
- Consequences for a PREA Violation and/or Fraternalization;
- Reporting;
- Myths;
- Detection Strategies;
- Avoiding Inappropriate Relationships with Offenders; and
- Questions/Concerns.

The agency has created, "A Guide to Maintaining Appropriate Boundaries with Offenders." Each contractor and volunteer is provided the brochure during their orientation training. The brochure includes the following sections:

- A Duty to Report;
- Red Flags;

- Prevention;
- Resources;
- Prison Rape Elimination Act: Detecting, Reporting, Prevention; and
- Policy.

The agency's training includes notification of the agency's zero-tolerance policy and informs volunteers and contractors how to report such incidents. Volunteers and contractors are trained on their responsibilities under the DOC's prevention, detection, and response policies and procedures.

The Auditor reviewed the agency's Prison Rape Elimination Act (PREA) Training Acknowledgement form. Each contractor and volunteer is required to sign the acknowledgement form after attending the training. The contractor and volunteer signs the form that states, "By my signature, I certify that I have been notified of the requirement that I must report to my supervisor or to the district/facility administration any known instances or suspicions of sexual abuse or harassment of offenders, whether in custody or on community supervision. I certify that I understand that the Virginia Department of Corrections has a zero tolerance policy for sexual abuse or sexual harassment between offenders and between staff/contractors/interns/volunteers and offenders and that I agree to abide by that policy and report any known instances or suspicions of sexual abuse or harassment of offenders."

The facility has three (3) classifications of contractors and volunteers, level 1, level 2 and level 3. Each level is defined as:

- Level 1 - Have no contact with offenders;
- Level 2 - Have the possibility of contact with offenders but assigned duties do not require contact; and
- Level 3 - Have contact with offenders.

Level 1 contractors and volunteers receive a copy of the brochure, "A Guide to Maintaining Appropriate Boundaries with Offenders" and are required to review Operating Procedure 038.3 Prison Rape Elimination Act. Level 2 contractors and volunteers receive a copy of the brochure, the brochure is discussed with the contractor or volunteer, and are required to read Operating Procedures 038.3 Prison Rape Elimination Act and 135.2 Rules of Conduct Governing Employees Relationships with Offenders. They are also given the opportunity to ask questions on the material provided. Level 3 contractors and volunteers receive training provided by the PowerPoint Presentation, receive a copy of the brochure, review Operating Procedures 038.3 Prison Rape Elimination Act, 135.2 Rules of Conduct Governing Employees Relationships with Offenders. All materials are discussed with the contractor and volunteer and they are provided an opportunity to ask questions related to the materials.

The facility reported 2 contractors and no volunteers currently authorized to perform services in the facility. The Auditor reviewed the training records of both contractors. The review of records reveal the facility is training contractors prior to enlisting their services. Each contractor had signed the PREA Training acknowledgement form after completing the training. Volunteer services have been suspended due to COVID-19 restrictions in the facility. There have been no new volunteers or contractors trained or authorized to enter the facility in the previous 12 months. The Auditor reviewed the training records of 10 previously approved volunteers. A review of records reveal the facility is training volunteers prior to performing

services in the facility.

The Auditor conducted formal interviews with a contractor. The contractor verified he had been provided training related to the agency's zero-tolerance policy and how to report allegations of sexual abuse and sexual harassment. The Auditor asked the contractor specific questions related to the agency's policies and procedures for reporting allegations of sexual abuse and sexual harassment. The contractor understands the requirements for reporting allegations, information and knowledge related to such. He was asked to explain the responsibilities under the VADOC policies related to sexual abuse. The contractor provided responses that reveal he understands his rights and responsibilities according to the agency's policies and procedures. The contractor was aware the VADOC maintains a zero tolerance policy towards acts of sexual abuse and sexual harassment. The Auditor was informed contractors receive PREA training every year by the facility.

Conclusion:

The Auditor concluded the facility is appropriately training contractors and volunteers. Facility staff ensures documentation of training is maintained. The Auditor determined through a review of agency policies, procedures, training curriculum, brochure, acknowledgment forms and interviewing a contractor the facility meets the requirements of this standard.

Interviews with Staff

Interviews with Offenders

Observations

Analysis/Reasoning:

The agency has created a brochure that includes information for offenders. Each offender is provided the Zero Tolerance for Sexual Abuse and Sexual Harassment Brochure upon intake and arrival at the facility. Staff ensure each offender watches the video titled, "PREA: What You Need to Know" and provide the initial training in person utilizing the intake training outline during the intake process. Each offender signs the Acknowledgement of Preventing Sexual Abuse and Sexual Assault Training form after receiving the information. The Auditor conducted a review of the agency's Zero Tolerance for Sexual Abuse and Sexual Harassment Brochure. The brochure includes the following sections:

- Zero-tolerance;
- Reporting;
- Know Your Rights;
- Staff and Offenders Cannot...; and
- How Do I Get Help.

The agency maintains the brochure in three (3) different formats. There is an English, Spanish and Hearing Impaired version of the brochure. The Hearing Impaired brochure includes different reporting avenues for the hearing impaired. The hearing impaired brochure includes how to report an allegation of sexual abuse or sexual harassment through the TTY or relay service.

The agency personnel who educates offenders utilize a Trainer Outline. Each offender is provided an orientation upon arrival. The Auditor reviewed the agency's Trainer Outline. The outline is used during intake and includes the following sections:

- Introduction;
- Play the Video - PREA: What You Need to Know;
- Reporting;
- Getting Help;
- Sexual Assault Awareness and Prevention brochure;
- Questions; and
- Summary.

Each offender is provided a comprehensive education within 10 days of arrival in the VADOC. The comprehensive education is conducted by an agency staff member when offenders arrive

in the intake area. The trainer utilizes an outline to conduct the comprehensive education. The Auditor reviewed the agency's comprehensive education trainer outline and observed the following information:

- Purpose;
- Key Points;
- Zero-Tolerance Policy;
- Definitions;
- How to Get Help;
- Reporting;
- Video;
- Emotional Support Services;
- Discussion and Questions; and
- Closing.

The comprehensive education is conducted in person, in conjunction with a video. Each offender is provided time to ask questions at the conclusion of the education session. The agency maintains all intake and comprehensive information in English and Spanish. The agency's comprehensive education materials include, the offender's rights to be free from sexual abuse and sexual harassment, rights to be free from retaliation for reporting sexual abuse and sexual harassment incidents and information regarding the agency's policies and procedures for responding to such incidents. The facility's educational video is closed captioned in English and Spanish.

Each offender is provided the Zero Tolerance Brochure and comprehensive education during the booking process. Upon arrival the Wise Correctional Unit facility staff provides the offender the written information and has the offender watch the comprehensive educational video within 10 days of arrival. All offenders are required to participate in the education process. Offenders are also provided an orientation to the facility. The orientation includes the facility's PREA information.

Each offender is provided an Offender Orientation Handbook upon arrival at the Wise Correctional Unit. The Auditor reviewed the facility's Offender Orientation Handbook. The handbook is maintained in English and Spanish. The agency has an Offender Handbook for blind offenders who read Braille. The facility's handbook includes the following information related to the agency's policies and procedures towards sexual abuse and sexual harassment:

- Reporting
- Zero Tolerance
- Emotional Support Services Access
- Grievances
- PREA Compliance Manager Information
- Zero Tolerance for Sexual Abuse and Sexual Harassment Borchure

Each offender is required to sign the agency's "Preventing Sexual Abuse and Assault Training Acknowledgement" form. The form is signed at two different times, after receipt of the intake information and after receipt of the comprehensive education. The intake portion of the form requires the offender sign receipt of information on the sexual abuse Hotline Number and appropriate use of hotline reporting and the intake training and information. The

comprehensive education portion of the form requires offenders sign for receipt of the comprehensive education. The form requires the offender sign acknowledging, "By signing below, I acknowledge that this information was communicated to me visually, verbally, and in writing based on the Intake and Comprehensive training curriculum titled 'Preventing Sexual Abuse and Sexual Assault'. I also acknowledge receiving information for free, emotional support services through an outside agency."

The Auditor reviewed the classification records of 20 offenders. The file review included the offenders chosen for formal interviews. A review of classification records revealed each offender signed for receipt of the information and comprehensive education on the Preventing Sexual Abuse and Assault Training Acknowledgement form. The comprehensive education was provided within 10-days of each offender's arrival. In most instances the comprehensive education occurs the day of arrival or the next day, depending on the time of arrival. The Auditor was able to determine by a review of a relevant sample of offender classification records the offender population receives a comprehensive education. While interviewing offenders the Auditor was informed they received an Offender Orientation Handbook and brochure during the booking process. Records indicated each offender attended an orientation. The Offender Orientation Handbook includes facility sexual abuse and sexual harassment information. Each offender informed the Auditor they have seen information posted throughout the facility regarding sexual abuse and sexual harassment. Some offenders stated they have not read them as they are not interested in the sexual abuse and sexual harassment information.

The Auditor conducted a formal interview with an intake staff member. The staff member was asked to explain how offenders are educated on the agency's sexual abuse and sexual harassment policies. The staff member stated each offender is provided the brochure and comprehensive education upon arrival. The comprehensive educational video is played to the group of arrivals. The Auditor asked how long after arrival are offenders provided the information and education. The staff member informed the Auditor the information and video are both provided to the offender as soon as they are searched and seating in the waiting area. The information and education is typically provided within hours of arrival. The Auditor asked if offenders are provided an opportunity to ask questions. The staff member stated he allows each offender the opportunity to ask questions after the educational session. The intake staff member stated the Case Manager meets with each offender individually and provides the offender an opportunity to ask questions.

The Auditor asked how cognitively challenged offenders benefit from the education. The Auditor was informed one-on-one sessions with those offenders would be conducted to ensure they benefit from the information. The Auditor discussed the process of educating offenders who are Limited English Proficient. The facility maintains the video and written information in Spanish. Offenders who speak other languages are educated by an agency interpreter or through use of the language line.

The Auditor conducted a formal interview with two staff members who conduct the facility's risk screening. The Case Managers stated they provide each offender an opportunity to ask questions related to the agency's sexual abuse and sexual harassment policies and procedures when they meet individually with each offender. The Auditor asked how the facility ensures offenders who may be cognitively challenged benefit from the facility's sexual abuse information and education. The Auditor was informed they discuss the PREA information with

each offender to ensure they understand the information. The Auditor was informed translators are used for offenders who do not speak English or Spanish.

At the time of the audit there were no offenders who were blind, deaf, cognitively or physically disabled, or identified as Limited English Proficient. The Auditor was informed PREA information is read to offenders who are visually impaired or blind. Blind offenders who can read Braille are provided the facility's information in Braille. Blind and visually impaired offenders benefit from the educational video through the audio. The Auditor was informed the agency contracts for telephonic language line services to interpret for offenders who do not speak English. The facility also utilizes facility interpreters or interpreters from another agency facility when needed. Any offender who is deaf or hard of hearing can benefit by reading the information.

While touring the facility the Auditor observed key information readily available in the form of PREA posters and postings throughout the facility. Each offender is provided written information that is always accessible to the offender. The facility maintains PREA materials written in English and Spanish. During interviews with offenders the Auditor was informed they have seen the posted materials in their housing units and throughout various service areas in the facility.

Conclusion:

The Auditor concluded the offender population at the Wise Correctional Unit has been appropriately educated in the agency's zero-tolerance policy, how to report allegations, rights to be free from sexual abuse, sexual harassment, retaliation, and the agency's policies and procedures for responding to such. The facility maintains appropriate documentation of such in each offender's record. The Auditor reviewed the agency's policies, procedures, offender records, Offender Orientation Handbook, Zero Tolerance Brochure, training outlines, interviewed staff and offenders to determine the facility meets the requirements of this standard.

The training developed for Institutional Investigators is titled, "PREA Specialized Training: Investigating Sexual Abuse in Confinement Settings." The PowerPoint Presentation is 174 slides and includes all the bulleted topics as previously listed in the Auditor Discussion portion of this standard.</p> <p data-bbox="248 1910 1422 2067">The Auditor reviewed the agency's training curriculum utilized to train the Special Investigations unit Investigators. The first two modules of the training PowerPoint was developed by the Moss Group, Inc. There are a total of 10 training modules in the 2.5 day class. The training course includes the following modules:</p>

- PREA Refresher and Overview of the PREA Investigative Standards
- Legal Issues and Agency Liability
- Overview of VADOC Policies and Procedures
- Agency Culture and Boundary Issues
- First Response and Evidence Collection
- Forensic Medical Exam
- Trauma and Victim Response
- Prosecutorial Collaboration
- Interviewing Techniques
- Report Writing

In addition to the in-person training, the agency requires its investigators complete the National Institute of Corrections, "PREA: Investigating Sexual Abuse in a Confinement Setting" online course. The Auditor verified each investigator course includes interviewing victims, Miranda and Garrity Warnings, evidence collection, and criteria and evidence to substantiate a case. The Auditor reviewed the training records of all SIU and WCU Investigators. Each investigator had received specialized training for investigators. The agency maintains a training certificate for each investigator. In addition, the training records revealed each investigator received the same training offered to all VADOC employees.

The Auditor formally interviewed the WCU Sexual Abuse Investigator. The investigator has been newly appointed to the position. The Auditor asked the Investigator to explain the topics included in the specialized training he received. At this time, the Investigator has completed the National Institute of Corrections' online specialized training that includes the required topics. He has been scheduled to attend the VADOC investigative class in July 2021. Until the investigator completes the VADOC training the facility plans to contact the Investigator from the Wallens Ridge Correctional Center. The Auditor formally interviewed the Wallens Ridge Correctional Center's Investigator while auditing that facility. The Investigator had received the specialized training and is knowledgeable in the investigative requirements of these standards.

The Auditor conducted a telephone interview with an agency SIU Investigator. The SIU Investigator informed the Auditor he has received training offered by the agency to conduct sexual abuse investigations in a confinement setting. The Investigator explained the SIU conducts sexual abuse and sexual harassment investigations in the facility when the act appears to be criminal in nature. The Investigator had been trained on the bulleted items listed above. The SIU Investigator issues Miranda and Garrity, interviews those involved, collects evidence, and is familiar with the criteria and evidence to substantiate a case. The Investigator explained he is a sworn law enforcement officer and consults with the Commonwealth Attorney's office to discuss sufficient evidence to prosecute a case.

There have been no allegations in the facility within the past 12 months that required referral for criminal investigation by an SIU Investigator. The agency utilizes an Investigations Matrix. The matrix includes the investigations that are conducted by the following:

- Investigations Handled by Facility
- Investigations Started at Facilities and Passed on to SIU
- Joint Investigations
- Investigations Handled by SIU

- Investigations Handled on Case by Case Basis

A review of the Investigations Matrix revealed the facility is required to conduct an initial PREA, Fraternalization and harassment investigation. The matrix informs confirmed PREA allegations are to be passed on to the SIU and the SIU is required to conduct confirmed PREA allegations, confirmed fraternization and sexual assault investigations.

No department of justice component is required to investigate sexual abuse allegations in the Wise Correctional Unit.

Conclusion:

The Auditor concluded the agency has provided appropriate training to its Sexual Abuse Investigators. The Auditor conducted a review of policies, procedures, training curriculum, Investigation Matrix, PowerPoint Presentations, training records, and conducted interviews with agency investigators to determine the agency meets the requirements of this standard.

The agency contracts with a physician who provides services on a weekly basis in the facility. The facility employs 1 staff member in the medical section. All personnel in the medical and mental health department are required by agency policy to complete specialized training. The Auditor reviewed the training records of the facility medical staff member and contract physician. Records reveal each practitioner completed the specialized medical</p>

training. The facility documents attendance in specialized medical training.

Mental health services in the facility are provided by a VADOC mental health practitioner from the Wallens Ridge Correctional Center. The mental health practitioner reports to the Wise Correctional Unit on an as need basis. The Auditor reviewed the record of the WRCC mental health practitioner. The practitioner had received the specialized medical training. In addition to the specialized medical training, the Auditor verified each medical and mental health practitioner had been provided the training offered to all staff and/or contract personnel.

Specialized medical training is provided to medical and mental health practitioners utilizing the National Institute of Corrections', "PREA: Medical Health Care for Sexual Assault Victims in a Confinement Setting" and "Behavioral Health Care for Sexual Assault Victims in a Confinement Setting." The specialized training includes detecting and assessing signs of sexual abuse and sexual harassment, preserving physical evidence, responding effectively and professionally to victims, and how to report allegations or suspicions of sexual abuse and sexual harassment. Each medical and mental health professional is provided the specialized training during their orientation and prior to performing services in the facility.

The Auditor conducted a formal interview with the facility's medical practitioner and a telephone interview with the Mental Health Practitioner at the Wallens Ridge Correctional Center. Each practitioner informed the Auditor they had received both specialized training and the training offered to all VADOC employees. The Auditor was informed the training was provided during their orientation to the facility and each year thereafter. The Auditor questioned each practitioner about the training topics as required by this standard. The Auditor asked the medical practitioner to explain how medical staff treat victims while preserving physical evidence. She explained the victim's life threatening injuries would be prioritized and treated while attempting to preserve any evidence in the process. If there are no life threatening injuries the nurse obtains vital sign and obtains as much information as possible from the victim while waiting for the SANE to arrive. The Auditor verified the medical practitioner has been educated regarding the requirements of this standard. The Auditor was informed medical and mental health personnel are required to attend in-service training on an annual basis. The in-service includes a review of the agency's policies and procedures towards sexual abuse and sexual harassment and the National Institute of Corrections Specialized Training.

The medical practitioner informed the Auditor she has been trained how to communicate with victims while treating or assessing the victim. The Auditor asked if she had been trained to recognize the signs and symptoms of sexual abuse when treating an offender who may have been sent to the medical department for other reasons. The practitioner stated she has been trained and looks for signs and symptoms while treating offenders.

Medical personnel at the Wise Correctional Unit do not conduct forensic examinations. Forensic examinations are performed on site by a Sexual Abuse Nurse Examiner from the Ballard Health Russell County Hospital.

Conclusion:

The Auditor concluded medical and mental health professionals at the Wise Correctional Unit have been appropriately trained. The facility maintains documentation that medical and mental health professionals have received specialized medical training and the same training offered

to all VADOC staff. The auditor conducted a review of VADOC policies, procedures, training curriculum, training records and interviewed medical and mental health professionals to determine the facility meets the requirements of this standard.

Offender Records

Interviews with Staff

Interviews with Offenders

Analysis/Reasoning:

The agency uses an electronic record keeping system known as VACORIS. The Auditor reviewed the agency's VACORIS form utilized to screen offenders upon admission. The screening tool is objective in nature and includes the following considerations:

- Mental, physical, and developmental disabilities;
- Age of the offender;
- Physical stature;
- Previous offenses;
- Criminal history, including exclusively non-violent history;
- Prior convictions for sex offenses against adults or children;
- Sexual orientation, including gay, lesbian, bi-sexual, transgender, intersex and gender non-conforming;
- Previous experiences of sexual victimization; and
- Offender's own perception of vulnerability.

In addition, the agency's screening tool considers the following:

- Prior acts of sexual abuse;
- Prior convictions for violent offenses; and
- History of prior institutional violence or sexual abuse.

Each offender who enters the Virginia Department of Corrections is screened by a staff member upon admission. The staff member questions the offender utilizing the agency's risk screening tool. All answers are included in the agency's VACORIS. All offenders are classified within 72 hours of arrival at the facility. The risk screening questions are asked of each offender by the facility's Case Manager.

The Auditor conducted a formal interview with two facility Case Managers. Case Managers conduct the risk screening of each offender in a private area. The Auditor asked each Case Manager how long after arrival do they conduct the risk screening. Each Case Manager meets with the offender either the same day or following day, depending on the time of arrival. The Auditor asked if any reassessments are conducted of offenders. Each Case Manager informed the Auditor a reassessment is conducted of every offender within 21 days but no sooner than 14 days of the offender's arrival. Case Managers explained a reassessment is conducted when in receipt of a referral, request, and after an incident of sexual abuse.

The Auditor asked each Case Manager to explain what they do if an offender refuses to answer the Classification Assessment questions. The Case Managers stated they make a

determination based on their own judgement and the information transferred with the offender. The Auditor asked each Case Manager if they discipline an offender for refusing to answer the questions. Both Case Managers stated they do not discipline offenders for refusal to answer. The Auditor was informed the VADOC policy prohibits the disciplining of an offender for refusing to answer questions related to the PREA questions.

The Auditor conducted a review of 29 offender risk screenings and reassessments, including the offenders chosen for formal interviews. Each offender's record included a completed Classification Assessment and reassessment. Each offender had been appropriately screened within 72 hours of their arrival at the Wise Correctional Unit. A review of records determined there were no offenders who reported a disability, suffering sexual victimization or perpetrated sexual abuse. There were no offenders who identified as gay, bisexual, transgender, intersex or who were perceived as gender non-conforming.

While reviewing classification records, the Auditor observed each file included an initial Classification Assessment and a reassessment of each offender's level of risk for sexual victimization or abusiveness. Each reassessment was conducted within 21 days of the offender's arrival. The Classification Assessment requires the staff member notate a referral to the QMHP and document the date the referral was made. There were no referrals notated in the 29 offender files. The agency's PREA Reassessment form includes the following considerations:

- Has the offender been diagnosed with a mental, physical, or developmental disability not recorded on the Classification Assessment;
- Has the physical build of the offender changed since the Classification Assessment;
- Has the age of the offender changed since the Classification Assessment;
- Has the offender received disciplinary charges since the Classification Assessment;
- Has the offender reported experiencing sexual victimization that was not recorded on the Classification Assessment;
- Is the offender's identification as homosexual, bisexual, transgender, intersex, or gender nonconforming different from what is recorded on the Classification Assessment;
- Has the offenders own perception of vulnerability changed since the Classification Assessment;
- Since arriving at this facility, has the offender been forced or threatened by anyone to engage in sexual activity; and
- Is your perception of whether the offender is gender nonconforming different from what is indicated on the Classification Assessment?

The PREA Reassessment includes a section for the staff member to indicate if the offender is identified as High Risk of Sexual Victimization or Abusiveness and indicate if a follow-up with the OMHP is offered.

The Auditor conducted formal interviews with staff. Staff were asked if they had access to the information obtained from the risk screening conducted during the booking process. All randomly selected Correctional Officers informed the Auditor their access in the VACORIS was limited and they could not see the offender's answers on the Classification Assessment. The Auditor was informed each staff member is provided a unique username and password. The agency limits staff access in VACORIS based upon their position in the agency. Information

obtained from the risk screening in VACORIS is limited to those who inform housing, bed, work, education and programming decisions.

The Auditor conducted formal interviews with offenders. All offenders were asked if they had been asked questions as previously listed during the intake process. Offenders stated they had been asked such questions during the booking process. The Auditor asked each offender if anyone at the facility had asked them the same questions after being booked into the facility. Some offenders stated they were asked the same questions during their annual evaluation. The Auditor was informed Case Managers ask those questions in private.

The Wise Correctional Center does not conduct a reassessment of vulnerability and aggressiveness prior to transfer to another facility as each VADOC facility is required to conduct an assessment upon the offender's arrival.

At the time of the Audit there were no offenders detained solely for immigration purposes.

Conclusion:

The agency's classification staff is attempting to discover the level of risk of sexual victimization or sexual abusiveness of offenders during the booking process and within 30 days of an offender's arrival based upon additional information, incidents and referrals. The Auditor reviewed the agency's policies, procedures, offender records, and interviewed staff and offenders to determine the facility meets the requirements of this standard.

Interviews with Staff

Interviews with Offenders

Analysis/Reasoning:

The Auditor reviewed offender classification records. Of the records reviewed there were no offenders who identified as transgender, intersex, bisexual or gay. There were no offenders perceived as gender nonconforming. The classification records reveal facility staff made individualized considerations when determining offender housing, bed, work and other assignments to ensure each offender was maintained safely in the facility. The assessment form considers an offender's own views of safety when determining assignments. A review of records identified no offender reported feeling vulnerable to sexual victimization. The Auditor observed classification staff is utilizing information obtained from the risk screening to assign facility housing, bed, and work assignments to ensure those offenders are protected. The Case Manager ensures offenders identified at risk of victimization are not placed in a program or education with those identified as potential abusers. Case Managers consider an offenders own perceptions of their safety before making housing, programming, education and work decisions. The screening tool includes sections where the Case Manager documents his/her own perceptions of the offender.

The Auditor formally interviewed two facility Case Managers. Case Managers were asked to discuss the classification process with transgender and intersex offenders. The Auditor asked if Case Managers seriously consider a transgender/intersex offenders own perception regarding their safety in the facility. Each Case Manager stated the Classification Assessment requires them to ask offenders about their own perception regarding safety. The Auditor asked Case Managers how often transgender and intersex offenders housing and placement assignments are reviewed. The Auditor was informed the reviews are conducted at least every six months to discuss their placement status. The reviews are documented in the VACORIS electronic record.

A review of the HRSV and HRSA report reveals there were no offenders identified as high risk of victimization or high risk of abusiveness housed at the facility at the time of the audit. Each Case Manager explained they utilize information from the risk screening to ensure offenders identified at high risk of victimization are housed separately from those identified at high risk of abusiveness.

The Auditor observed all housing units in the facility during a detailed tour. While touring, the Auditor observed all shower and restroom areas. Transgender and intersex offenders have the opportunity to shower, change clothes and use the restroom without staff of the opposite gender seeing them fully naked. Transgenders would be escorted to the shower area (in the basement/recreational area) at times when other offenders are confined to their housing units to shower separately from other offenders.

There were no offenders housed at the time of the audit who identified as transgender, intersex, gay or bisexual. There have been no offenders who identify as such housed at the facility during this audit cycle.

At the time of the audit the Wise Correctional Unit was not under a consent decree, legal settlement, or legal judgement for the purpose of protecting lesbian, gay, bisexual,

transgender or intersex offenders.

Conclusion:

The Auditor concluded facility staff are making individualized determinations when assigning housing, bed, work, programming and education assignments to offenders. The agency has appropriate policies, procedures and practices in place to protect those identified at high risk of victimization. Transgender and intersex offenders can shower separately from other offenders. The Auditor conducted a thorough review of policies, procedures, offender records, made observations and interviewed staff and offenders to determine the facility meets the requirements of this standard.

	<p>Auditor Discussion:</p> <p>The Virginia Department of Corrections prohibits placing offenders at high risk for sexual victimization in restrictive housing without their consent unless an assessment of all available alternatives has been made, and a determination has been made by the Qualified Mental Health Professional in consultation with the Regional PREA Analyst and Shift Commander that there is no available alternative means of separation from likely abusers. Policy requires the facility clearly document the basis for the facility's concern for the offender's safety and the reason why no alternative means of separation can be arranged. This information is documented by the Shift Commander on the Sexual Abuse/Sexual Harassment Available Alternatives Assessment form. The Auditor reviewed housing and classification records and discovered no evidence an offender had been identified at high risk of sexual victimization and placed in involuntary segregated housing as a result of such</p>

identification.

The Auditor conducted formal interviews with two facility Case Managers and security supervisors. The Auditor discussed the process of placing an offender identified at high risk of sexual victimization in involuntary segregated housing. The Auditor was informed the facility does not have segregated housing. The facility has 2 holding cells where an offender could be housed for protection. The facility houses offenders in one of these cells for up to 24 hours. Any offender placed in the holding cell that requires further protection or longer periods of time in the holding cell are transferred from the facility.

Facility staff reported there are only two housing units available to house offenders. Any offender who needs protection would be recommended for transfer from the facility. The Auditor questioned staff to gain an understanding of the policies in the event an offender needed to be placed involuntarily in a holding cell. The Auditor was informed an immediate assessment is conducted to view available housing alternatives prior to placing the offender in segregated housing. If the offender could be safely housed in the other housing unit the offender's housing would be changed prior to placing the offender in a holding cell. When an offender is placed in the holding cell for protection from sexual abuse, facility staff are required to complete an immediate assessment and document the assessment on the agency's Sexual Abuse/Sexual Harassment Available Alternatives Assessment form. The form includes the following information:

- Can the offender be reassigned to another housing unit;
- Was another alternative to involuntary segregated housing used, list option;
- Can offender be transferred to another facility;
- If allegation was made and staff is alleged perpetrator, was the staff member placed on administrative leave or placed on another post;
- Was the offender or alleged victim reassigned to Special Housing/Restrictive Housing Unit for Protective Custody;
- Is access to programs, privileges, education, or work opportunities restricted, if yes list which ones and why?

The Sexual Abuse/Sexual Harassment Available Alternatives Assessment form requires the Warden's signature and date. The form must be emailed to the Regional PREA/ADA Analyst. The form stipulates staff must make an assessment of all available alternatives and a determination that no available alternative means of separation from likely abusers exists prior to placing an offender at high risk of sexual victimization or an offender who has alleged sexual abuse or sexual harassment in involuntary segregated housing. Case Managers and the Warden informed the Auditor they would not house an offender in the holding cell for more than 24 hours. The facility would immediately recommend the offender be transferred to another facility more suitable to house the offender in need of separation.

The Auditor asked supervisors and Case Managers how they avoid placing an offender at high risk of sexual victimization in the Restrictive Housing Unit. The Auditor was informed the facility would assign the offender to the other available housing unit. The Auditor asked what happens when the offender cannot be housed in the other housing unit. The Auditor was informed the facility would place the offender in the holding cell and immediately request a transfer to another facility. The Auditor asked the facility Warden how difficult it is to transfer an offender. The Warden stated he can transfer an offender as long as there is a legitimate

need to do so.

Each supervisor was asked if an offender identified as high risk of sexual victimization receives opportunities to attend programs, education, work and/or receive other privileges. The Auditor was informed policy allows offenders in restrictive housing the opportunity for such. Agency offenders in Restrictive Housing Units are provided privileges, education and programming to the extent allowable, consistent with security needs. Case Managers are required to conduct a review each week for the first two months then every 30 days after. Any restrictions to an offender's access to programs, education, work or other privileges would be documented on the Sexual Abuse/Sexual Harassment Available Alternatives Assessment form. The Auditor was informed the facility has never placed an offender in the holding cells for protection from sexual abuse.

The Auditor conducted a detailed tour of the facility. Observations were made of all offender housing units. The Auditor observed two housing units available to house offenders. The facility is limited to one housing unit to change an offender's housing who made be in need of protection from another offender prior to placing the offender in involuntary protective custody. The Auditor reviewed the facility's Offender Alert Report. The Offender Alert Report designates those who have been designated as high risk of sexual victimization (HRSV) and those designated at high risk for being sexually abusive (HRSA). The Auditor observed there are no offenders on the WCU's alert report.

There were no offenders housed at the time of the audit who reported identification as transgender, intersex, bisexual, or gay. There were no offenders at the time of the audit who reported an allegation at the facility or who reported previously suffering sexual victimization. The Auditor reviewed records and found no evidence the facility housed any offenders in these categories during the previous 12 months. The Auditor discovered no offender interviewed had been placed in a holding cell for any reason. The Auditor conducted a review of records of the offenders chosen for interviews. A review of records reveal none had been placed in involuntary segregated housing for protection from sexual abuse.

Conclusion:

The facility has appropriate procedures in place to ensure offenders identified at high risk of sexual victimization who are placed in involuntary segregated housing receive appropriate placement, reviews and other privileges. The Auditor reviewed VADOC policies, procedures, classification records, housing records, Sexual Abuse/Sexual Harassment Available Alternatives Assessment form, Offender Alert Report, made observations and interviewed staff and offenders to determine the facility meets the requirements of this standard.

Observations

Analysis/Reasoning:

The Auditor reviewed the facility's Offender Orientation Handbook. The handbook includes a section regarding the Prison Rape Elimination Act. Offenders are referred to the attached Zero Tolerance Brochure to learn information how to report allegations of sexual abuse and sexual harassment. The Auditor reviewed the agency's Zero Tolerance Brochure. Each offender is provided the brochure during their intake. The brochure informs offenders to report sexual abuse or sexual harassment by:

- Verbally to staff
- Call #55
- Ask family or friends to report (email address, telephone number and address provided)

The Auditor reviewed the Memorandum of Understanding with the Virginia Sexual and Domestic Violence Action Alliance (VSDVAA). The VSDVAA has agreed to:

- "The toll-free Family Violence and Sexual Assault Hotline (statewide hotline) shall be a resource for reporting sexual abuse or assault available to victims (DOC offenders) statewide who desire an external method of reporting. The statewide hotline number shall be provided to offenders on request. Those incarcerated shall be advised at orientation that this method of reporting exists; and
The Action Alliance, in keeping with state and federal law, shall ensure confidentiality for all callers to the statewide hotline, including incarcerated victims in keeping with the Action Alliance confidentiality and release of information policies. Should a DOC victim agree to the release of information, the Action Alliance shall immediately forward any reports of sexual abuse or assault to the PREA Coordinator (number provided)."

The Auditor participated in a detailed tour of the Wise Correctional Unit. The tour included both offender housing units and support areas. Observations were made of posters and postings throughout the facility that inform offenders about the agency's zero-tolerance to sexual abuse and sexual harassment and how to report allegations of sexual abuse and sexual harassment. The postings include the agency's available hotline number to the Family Violence and Sexual Assault Hotline. Offenders are not required to input a designated PIN number to dial the hotline number. This ensures offenders can remain anonymous upon request.

The Auditor reviewed staff training records. The agency's training includes the reporting avenues available to the offender population. All staff are provided the training in orientation, during the Correctional Officer Basic Course and during annual in-service training. Staff are informed of their avenue for privately reporting allegations of sexual abuse and sexual harassment in the agency's policy. The policy states, "Staff can privately report the sexual abuse and sexual harassment of offenders through the established reporting hotline at [number provided]."

The Auditor reviewed the Virginia Department of Corrections website. The website includes a link to access its PREA information. The public has access to the VADOC reporting avenues. The public is informed how to make an allegation on behalf of an offender. The website's "Report Abuse" states, "If you have or someone you know has been sexually abused or sexually harassed while in custody or under supervision of the Virginia Department of Corrections (VADOC), safely report the incident:

- Call the 24/7 confidential reporting hotline at (number provided)
- File a complaint by completing the Third Party Reporting Form. The form is also available in Spanish
- Send an email to (email address provided)."

The Auditor conducted formal interviews with randomly chosen staff. Each staff member was asked if he/she is required to accept any and all reports of sexual abuse, sexual harassment, retaliation and staff neglect. Staff informed the Auditor they are required to accept such reports. Staff stated they are required to report allegations immediately to the Shift Commander and include the information on an Internal Incident Report. Each staff member was asked how they would privately report an allegation. The Auditor was informed staff would report the allegation through the hotline or to the investigator.

The Auditor conducted formal interviews with randomly chosen offenders. Offenders were asked to explain how they would report an allegation of sexual abuse, sexual harassment, retaliation, or staff neglect. Each offender, excluding one, informed the Auditor they would report an allegation verbally to a staff member. The one offender stated he would not report an allegation to staff as he would be embarrassed to do so. That offender stated he would report an allegation through the hotline. Offender's responses reveal they feel confident in staff's ability to report allegations verbally to staff member. Each offender interviewed understands the available reporting avenues and are aware of the hotline, anonymous reporting and third-party reporting. Offenders understand they could make an allegation through an emergency grievance.

The Auditor conducted formal interviews with a facility contractor. The Auditor asked the contractor if he is required to report any knowledge, suspicion or information regarding an act of sexual abuse or sexual harassment. He informed the Auditor he is required to immediately report such. When asked if he is required to document the information, the contractor stated he is required to write a report.

The facility received no allegations of sexual abuse or sexual harassment during this audit cycle. There were no staff members who privately reported an allegation of sexual abuse or sexual harassment against an offender during the previous 12 months.

At the time of the Auditor there were no offenders detained solely for civil immigration purposes.

Conclusion:

The Virginia Department of Corrections provides multiple ways for offenders to report allegations of sexual abuse and sexual harassment, including a public office that is not part of the agency who immediately forwards reports of sexual abuse and sexual harassment to the Regional PREA/ADA Analyst. The facility requires staff accept, report and document all allegations of sexual abuse and sexual harassment. The Auditor reviewed the agency's policies, procedures, Offender Orientation Handbook, Zero Tolerance Brochure, Website, postings, MOU, training records, made observations, interviewed staff and offenders and determined the facility meets the requirements of this standard.

Offender Orientation Handbook

Interviews with Staff

Interviews with Offenders

Analysis/Reasoning:

The Auditor reviewed the Wise Correctional Unit's Offender Orientation Handbook. The handbook includes a section regarding the submission of grievances. The handbook informs offenders how to submit grievances and includes the facility's response to such. The handbook informs offenders what issues are grievable and not grievable. The handbook does not inform offenders that they may submit an allegation of sexual abuse or an imminent risk of sexual abuse. The Offender Orientation Handbook does not stipulate the facility's response to grievances alleging sexual abuse or an imminent risk of sexual abuse.

The Auditor conducted formal interviews with offenders. Offenders were asked to explain the different ways of reporting allegations of sexual abuse and an imminent risk of sexual abuse. Most offenders asked were aware the facility accepts allegations of sexual abuse through the grievance mechanism. Offenders were aware they could make an allegation of sexual abuse anonymously. None of the offenders interviewed by the Auditor had filed a grievance alleging an imminent risk of sexual abuse or an allegation of sexual abuse.

The Auditor conducted interviews with facility staff. Staff were asked if offenders could submit a grievance alleging sexual abuse and/or alleging an imminent risk of sexual abuse. Each staff member was aware offenders could file such grievances. Supervisors interviewed by the Auditor explained their responsibilities in response to emergency grievances alleging an imminent risk of sexual abuse. Supervisors informed the Auditor they take immediate action to ensure the safety of the offender. The offender alleging a risk of sexual abuse would be separated from the potential abuser while an immediate investigation takes place to determine if the offender is at risk. The Auditor was informed the offender is provided a response within 8 hours. The Auditor asked what is included in the written response. The Auditor was informed the response to the offender includes whether the offender is at substantial risk of imminent sexual abuse and the supervisor's actions taken in response to the emergency grievance.

The Auditor discussed disciplining an offender who has submitted an emergency grievance alleging sexual abuse in bad faith with the PCM. The PCM informed the Auditor they must have proof the offender submitted an allegation in bad faith. The Auditor was informed the facility is required to obtain approval from the Regional PREA/ADA Analyst prior to placing a disciplinary charge on an offender for such. The Regional PREA/ADA Analyst informed the Auditor she reviews details of the allegation and investigative findings to ensure there is sufficient evidence to prove the offender submitted the allegation in bad faith. If such is determined, the Regional PREA/ADA Analyst may authorize the disciplinary charge. The Auditor was informed no offender at the Wise Correctional Unit has received a disciplinary charge for such.

The facility received no allegations of sexual abuse or sexual harassment during this audit

cycle. The Wise Correctional Unit reported no offender submitted a grievance alleging sexual abuse or an imminent risk of sexual abuse within the previous 12 months.

Conclusion:

The Auditor determined the VADOC has appropriate policies and procedures in place for addressing offender allegations of sexual abuse and an imminent risk of sexual abuse. Facility staff understand the agency's procedures and the offender population is aware they can submit grievances alleging sexual abuse and/or risk of imminent sexual abuse. The Auditor reviewed the agency's policies, procedures, Offender Orientation Handbook, and conducted interviews with staff and offenders to determine the facility meets the requirements of this standard. The Auditor recommends the facility consider adding language in the Offender Orientation Handbook that informs offenders they can submit grievances alleging allegations of sexual abuse or an imminent risk of sexual abuse and the facility's response to such.

The MOU stipulates VSDVAA agrees to the following, but not limited to, services:</p> <ul style="list-style-type: none"> ● Provide a toll-free Hotline for reporting sexual abuse or assault to victims statewide; ● Ensure confidentiality for all callers, including incarcerated victims, keeping with confidentiality and release of information policies. Should a DOC victim agree to the release of information, the VSDVAA will immediately forward and report of sexual abuse or assault to the Regional PREA Analyst; ● Provide statewide Hotline confidential crisis intervention and emotional support services related to all sexual abuse or assault victims; ● Seek to link DOC victims to accompaniment services through a trained victim advocate when victims request the service. This may include participation in forensic exams, investigations and may also include follow-up visits or communications. <p>Each offender is provided a Zero Tolerance Brochure upon booking. The brochure includes</p>

he address and telephone number to the VSDVAA. The brochure informs offenders to dial "#55" on the phone system to access the VSDVAA. The brochure states counseling for sexual abuse treatment is confidential. Each offender receives an Offender Orientation Handbook upon arrival. The handbook informs offenders they can obtain confidential emotional support services by dialing #55 and selecting option 2 on the telephone. The address for the VSDVAA is included in the handbook.

Each offender signs a Preventing Sexual Abuse and Assault Training Acknowledgement form after being provided the written information and comprehensive education upon arrival. The Auditor reviewed the Preventing Sexual Abuse and Assault Training Acknowledgement forms of 20 offenders. Each offender had signed the acknowledgement form. Section 5 of the comprehensive education portion of the acknowledgement form includes, "What to Remember (Includes Emotional Support Services available by dialing #55, option 2 or writing [address provided]." Offenders sign acknowledging receipt of the comprehensive education. The comprehensive education informs offenders the services related to emotional support are free and confidential.

The Auditor conducted formal interviews with offenders. Each offender was asked if they were aware of confidential support services that are accessible from within the facility. Most offenders are aware of confidential supportive services. Offenders informed the Auditor the facility has posters that include the process to access such services. None of the offenders interviewed by the Auditor had accessed community services from within the facility. Offenders were asked if they were provided information upon their arrival in the booking area. Each stated they had been provided written information upon arrival. The Auditor asked if they had watched a video regarding sexual abuse and sexual harassment. Offenders informed they had watched the video. Some offenders stated they watched the video at multiple facilities.

The Auditor conducted an interview with an advocate from the Virginia Sexual and Domestic Violence Action Alliance. The advocate was asked to discuss the services provided to victims of sexual abuse at the Wise Correctional Unit. The advocate discussed the items agreed to in accordance with the MOU with the agency. The advocate was asked if any offender has contacted her agency within the previous 12 months to request services. The advocate was unaware of an offender from the WCU who attempted such. The Auditor asked if the organization would come to the facility to provide services to victims. She stated if the organization determined a need to provide services in person they would do so. The Advocate was asked if referrals were made by the VSDVAA. The Auditor was informed they do make referrals when needed. The Auditor asked if any Wise Correctional Unit offender reported an allegation of sexual abuse through the VSDVAA hotline. The advocate was not aware of such.

The Auditor conducted an interview with a facility Investigator and an SIU Investigator. Each Investigator was asked if offender victims have access to confidential support services. The Auditor was informed victims are informed of the VSDVAA and facility mental health services following an incident of sexual abuse. The facility's medical practitioner discusses available services with the offender victim following an allegation. The Investigators stated the VSDVAA is contacted immediately following an incident of sexual abuse as they provide support during the forensic examination. The Investigators informed the Auditor Shift Commanders are required to follow a checklist following an incident of sexual abuse. The checklist requires the Shift Commander ensure the VSDVAA is contacted following an incident.

At the time of the audit there were no inmates detained solely for civil immigration purposes.

Conclusion:

The facility maintains documentation it provides emotional support services for sexual abuse victims through written agreements. Contact information with the organization is provided by intake personnel through the Zero Tolerance Brochure. The Auditor reviewed the VADOC policies, procedures, Memorandum of Understanding, Offender Orientation Handbook, Zero Tolerance Brochure, training acknowledgements and interviewed staff, offenders and victim advocate to determine the facility meets the requirements of this standard.

The handbook includes the agency's Zero Tolerance Brochure. Offenders are informed of thrid-party reporting in the Zero Tolerance Brochure. Each offender is provided the agency's Zero Tolerance Brochure upon arrival. The Auditor reviewed the agency's Zero Tolerance Brochure. The brochure informs offenders they may ask a family member or friend to report an allegation for them. The Auditor reviewed the agency's website. The website includes a link to the agency's Prison Rape Elimination Act information. The website directs the public to:</p> <ul style="list-style-type: none"> • "Call the 24-7 confidential reporting hotline at (number provided); • File a complaint by completing the Third Party Reporting Form. The form is also available in Spanish; • Send an email to (email address provided)." <p>The agency's website includes the Third Party Reporting Form. The Third Party Reporting Form is hyperlinked. When accessing the form instructions are included for the public to mail the form and provides the postal address. The email address of the PREA Coordinator is</p>

provided. The public can complete the form and email it to the PREA Coordinator.

The Auditor participated in a detailed tour of the Wise Correctional Unit. During the tour the Auditor observed PREA materials posted in all housing units and service areas, written in English and Spanish. The WCU materials provided to and for offenders inform they may have a third party make an allegation of sexual abuse and sexual harassment on their behalf.

The Auditor conducted formal interviews with staff. Staff were asked about accepting reports of sexual abuse and sexual harassment. Each staff member stated they were required to accept all reports of sexual abuse and sexual harassment, including third party reports. Staff stated they immediately report the allegation to their supervisor and are required to document the information on an Internal Incident Report. Staff stated the agency's policy requires them to document all verbal allegations received by offenders.

The Auditor conducted formal interviews with offenders. Each offender was asked what avenues were available for making an allegation of sexual abuse or sexual harassment. The offenders' collective responses included telling a staff member or any person they trust, filing an emergency grievance, calling the sexual abuse hotline, or having another person make the allegation on their behalf. Each offender understands how to have a third party file an allegation on their behalf. Each offender understands they can file an allegation anonymously.

The Auditor conducted formal interviews with the facility and SIU Investigators. Investigators stated they are required to investigate allegations made by third-parties. Investigators conduct investigations of all allegations, regardless of how they are made. The Auditor was unable to review investigative records as no offender reported an allegation of sexual abuse or sexual harassment during this audit cycle.

Conclusion:

The Auditor determined the facility accepts all reports, including third party reports, of sexual abuse and sexual harassment. The public is informed through the agency's website how to make a third-party report on behalf of an offender. The Auditor reviewed agency policy, procedures, website, posted PREA materials, Offender Orientation Handbook, Zero Tolerance Brochure, Third Party Reporting Form, interviewed staff and offenders, made observations and determined the facility meets the requirements of this standard.

any and all knowledge, suspicion or information related to sexual abuse or sexual harassment. The Auditor was informed staff are required to report the information immediately to a supervisor. The Auditor asked each staff member if they were required to report knowledge, suspicion or information related to retaliation, staff neglect or a violation of duties which may have contributed to an incident of sexual abuse or sexual harassment. All staff informed the Auditor they were required to report such verbally and in writing. Staff informed the Auditor they were required to document such allegations on an Internal Incident Report. Staff informed the Auditor they are required to submit reports promptly after an allegation.

During interviews with staff the Auditor questioned staff to gain an understanding of staff's ability to maintain confidentiality with any reported information related to sexual abuse or sexual harassment. The Auditor asked staff to explain who they report or discuss details of a sexual abuse or sexual harassment allegation with. Staff informed the Auditor they only discuss details with supervisors, medical/mental health practitioners and investigators. Staff understands the agency's policy requiring them to discuss information with those who can make treatment, medical and housing decisions.

The Auditor conducted formal interviews with the facility's medical and mental health practitioners. Practitioners were asked if medical and mental health personnel are required to report information, knowledge, or suspicions of sexual abuse, sexual harassment, retaliation, staff neglect or violations of responsibilities which may have contributed to an incident of sexual abuse. The Auditor was informed they are required to report such immediately. The Auditor asked who they report the information to. The practitioners informed the Auditor they immediately report the information to the Shift Commander. The practitioners stated they are required to inform offenders of their duty to report and the limitations on confidentiality at the initiation of services. Offenders are provided a consent form at the initiation of services.

The Auditor asked who medical reports information related to a sexual victimization that occurred in a community setting to. Medical and mental health practitioners only report such victimization after receiving written informed consent from the offender. The Auditor asked if there has been a situation where medical or mental health had to report sexual victimization that occurred in a community setting. The Auditor was informed there has not been a need to report such information. Medical and mental health practitioners informed the Auditor they are mandatory reporters for youthful offenders and of victimization that occurred in a confinement setting. The facility has not housed a youthful offender during this audit cycle. The Auditor was informed the facility does not house youthful offenders.

The Auditor conducted formal interviews with the facility's Investigator. The Auditor asked the Investigator if he has conducted investigations of allegations that were reported by third parties. The Investigator stated he has not conducted any investigations since being appointed as the investigator. The Investigator is scheduled to attend the VADOC training in July 2020. The facility utilizes the investigator at the Wallens Ridge Correctional Center until the facility's Investigator receives the training. The Wallens Ridge Correctional Center Investigator has conducted investigations of allegations made by a third-party. The facility Investigator informed the Auditor he will conduct an investigation of any allegation regardless of how it is reported. The Auditor stated he will conduct investigations that are reported anonymously. The Auditor asked if the facility investigator would make any effort to determine if staff actions or lack of actions may have contributed to an act he is investigating. The Investigator stated he will make such efforts and report findings to administrative personnel if

discovered.

The Auditor conducted formal interviews with randomly selected offenders. Each offender was asked if they were confident in staff's ability to maintain confidentiality of an allegation of sexual abuse after learning of a reported incident. Offenders stated they do feel staff would maintain confidentiality of the information. There were no youthful offenders housed at the facility for the Auditor to interview at the time of the audit.

The Auditor reviewed agency training curriculum. Training curriculum for staff, volunteers and contractors includes reporting of sexual abuse and sexual harassment allegations. Each is required to read the agency's policies and sign receipt for such on an annual basis. The Auditor verified through training records each staff member, contractor and volunteer had received training and read the policies how to report sexual abuse and sexual harassment information.

The Auditor conducted formal interviews with a facility contractor. The contractor was asked if he is required to report allegations of sexual abuse and sexual harassment. The contractor stated the agency requires contractors to immediately report such allegations. The Auditor asked if he had received training from the facility. The contractor stated he has received training and has been informed in training of the agency's requirement to report all allegations and knowledge of sexual abuse and sexual harassment to a security staff member. The contractor stated he was previously employed as an officer in the facility and is familiar with the agency's requirements regarding the prevention, detection and response toward acts of sexual abuse and sexual harassment.

The facility received no allegations of sexual abuse or sexual harassment during this audit cycle.

Conclusion:

The Auditor concluded staff, volunteers and contractors are aware of the VADOC requirement to report any knowledge, suspicion or information related to sexual abuse and sexual harassment. Staff understands the requirement to maintain confidentiality with the information obtained by an allegation. Interviews with medical and mental health practitioners revealed they understand the requirements for reporting sexual abuse that occurred in a community setting and for youthful offenders. The Auditor reviewed agency policies, procedures, training curriculum, and conducted interviews with staff, contractors, and offenders to determine the facility meets the requirements of this standard.

One of the offenders informed the Auditor he had previously experienced sexual victimization but has not informed facility staff. The Auditor asked offenders if they felt safe in the facility. Each offender interviewed stated they felt safe in the facility.</p> <p>The Auditor conducted formal interviews with facility supervisors. Supervisors were asked to explain what steps are taken to protect an offender after learning the offender is at a substantial risk of imminent sexual abuse. The Auditor was informed the potential victim and</p>

potential aggressor would immediately be separated from one another. The facility investigator would immediately be notified so the Investigator could determine if the offender was at risk and the level of risk that exists. Supervisors would place one of the offenders in another housing unit to maintain the safety of both offenders. If need be, one offender would be placed in a holding cell during the investigation.

The Auditor conducted formal interviews with randomly selected staff. Staff were asked what steps they would take after learning an offender was at imminent risk of substantial sexual abuse. Each informed the Auditor they would immediately notify their supervisor and stay with the at risk offender to ensure his safety. No staff member had been made aware of an offender who was at a substantial risk of sexual abuse.

The Auditor participated in a detailed tour of the Wise Correctional Unit. The Auditor observed the facility has two housing units that provide an opportunity to ensure offenders who are identified at a substantial risk of imminent sexual abuse could be housed separately from a potential aggressor. The facility has the ability to transfer offenders if the offender could not be housed safely. The facility reported no instance where facility personnel learned an offender was identified at a substantial risk of imminent sexual abuse during this audit period.

Conclusion:

The Auditor concluded the WCU takes immediate and appropriate actions to ensure the protection of offenders who are identified at a substantial risk of imminent sexual abuse. The Auditor reviewed agency policy, procedures, conducted interviews with staff and offenders, made observations to determine the WCU meets the requirements of this standard.

The Auditor asked the Warden to explain what takes place when he receives notification from another facility that a former WCU offender has alleged suffering sexual abuse while incarcerated at the WCU. The Warden stated he would ensure the investigator is notified so an investigation is conducted. The Warden explained he has not had to notify another facility within the previous 12 months and has not received notification from another facility. The Auditor discussed notification requirements of this standard with the</p>

Warden. The Warden is clear of the requirements. The Auditor has previously reviewed documentation of notifications made by this Warden while assigned to another VADOC facility. Previous notifications reviewed by the Auditor were made by email from the Warden to the head of other facilities.

Conclusion:

The Auditor reviewed the agency's policies, procedures, and conducted interviews with agency staff and determined the facility has appropriate procedures in place to comply with this standard. The Auditor determined the facility meets the requirements of this standard.

115.64	Staff first responder duties

	<p>Auditor Discussion:</p> <p>The Virginia Department of Corrections has a policy that requires the first security staff member who learns of an alleged sexual abuse incident will perform the following steps:</p> <ul style="list-style-type: none"> • Separate the alleged victim and abuser to ensure the victim's safety; • Notify the OIC and preserve and protect the crime scene until appropriate steps can be taken to collect any evidence; • Request the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, showering, brushing teeth, changing clothes, urinating, defecating, drinking, or eating, if the abuse occurred within a time period that still allows for the collections of physical evidence; and • Ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, showering, brushing teeth, changing clothes, urinating, defecating, drinking, or eating, if the abuse occurred within a time period that still allows for the collections of physical evidence. <p>VADOC policy requires if the first responder is not a security staff member, the responder will be required to ensure the victim's safety, request the alleged victim not take any actions that could destroy physical evidence such as showering, eating, brushing teeth, or drinking until after evidence collection, and notify the OIC.</p> <p>Policy requires the Organizational Unit Head or the person in charge at the scene of a serious incident take appropriate actions necessary to protect physical evidence and crime scenes until released to the responding Special Agent.</p> <p>Evidence Relied Upon:</p> <p>Policy - 038.3 Prison Rape Elimination Act, pg. 10</p> <p>Policy - 030.4, pg. 6</p> <p>Policy - 075.1, pg. 6</p> <p>WCU Coordinated Response Plan</p> <p>Sexual Assault Response Checklist</p> <p>Interviews with Security First Responders</p> <p>Interviews with Non-Security First Responders</p> <p>Interviews with Offenders</p> <p>Analysis/Reasoning:</p>

The Auditor conducted interviews with potential security and non-security staff first responders. All security first responders were asked to explain the actions they take when responding to a sexual abuse incident. First responders stated they would maintain separation of the victim and abuser and immediately notify the Shift Commander. Security staff stated they would request the victim and ensure the abuser not shower, eat, use the restroom, brush their teeth, drink or take any actions that could destroy physical evidence. The Auditor asked each what actions they take regarding the crime scene. Staff stated they ensure the crime scene is secured and/or a staff member is posted to ensure evidence in the crime scene is preserved. The Auditor asked each who would be processing evidence from the crime scene. Staff informed the Auditor the SIU investigator would be collecting evidence from the crime scene.

Each staff member interviewed by the Auditor was asked how they preserve evidence in a crime scene since the facility's housing units are open dormitory style. Staff informed the Auditor they remain in the area to keep other offenders and staff away from the scene. Offenders would be removed from the housing unit until photos are taken and evidence from the scene is collected. Staff stated a security member would be posted in the area to log all activity in the crime scene. Staff informed the Auditor they are required to submit an Internal Incident Report and required to include information in the housing unit logbook.

The Auditor reviewed the WCU Coordinated Response Plan. The Coordinated Response Plan includes first responders duties of security officers and security supervisors following an incident of sexual abuse. The Auditor observed the following required actions of security first responders:

- Separate the alleged victim and abuser;
- Notify the Shift Commander and medical staff immediately;
- Preserve and protect any crime scene;
- Request the alleged victim and abuser not to take any actions that could destroy physical evidence (washing, brushing teeth, changing clothes, urinating, defecating, drinking, or eating); and
- Escort the victim to the Medical Department as soon as possible to provide examination, treatment and evaluation.

Among other actions, the WCU Coordinated Response plan includes the following actions of security supervisors:

- Ensure the alleged victim and abuser are separated;
- Attempt to preserve any physical evidence and the safety and welfare of the offender(s) victim and abuser;
- Notify the Superintendent, Major, Administrative Duty Officer, Institutional Investigator, Institutional PREA Compliance Manager, and Western Region's PREA Analyst;
- Contact Special Investigations Unit (SIU);
- Ensure the victim is immediately escorted to the Medical Department for examination, treatment and evaluation;
- Ensure photographs are taken to document any physical evidence such as torn clothing, bruises, abrasions, etc.;
- Ensure referral for counseling and Mental Health Services are provided if warranted;

and

- If the alleged perpetrator is an employee, he or she shall be reassigned to a post with no offender contact, suspended, or placed on pre-disciplinary leave with pay based on circumstances or situation, pending completion of the investigation.

The Agency uses a Sexual Assault Response Checklist to document staff actions in response to a sexual abuse incident. The Sexual Assault Response Checklist includes all required actions listed in the facility's Coordinated Response Plan. In addition to security officer and security supervisor actions, the checklist includes follow-up services offered by counseling and mental health practitioners. The checklist requires the staff member include the date and time each action on the checklist was completed.

The Auditor reviewed the agency's training records. Training curriculum includes first responder duties of both security and non-security personnel. The Auditor observed all staff, contractors and volunteers are trained to appropriately respond to incidents of sexual abuse.

The Auditor conducted formal interviews with potential non-security first responders. Non-security first responders informed the Auditor they have received training by the agency to respond to incidents of sexual abuse. The Auditor asked each what actions they would take if they discovered an offender had been sexually abused. Each informed the Auditor they would remain with the offender and immediately notify a security staff member. Each was asked if they would be required to write a report regarding their knowledge and actions in response to the information. Each stated they are required to document such. The Auditor asked how they ensure any evidence would be protected. Each non-security first responder stated they would ask the offender not to take any actions that would destroy physical evidence. The Auditor asked each if they understand what actions could potentially destroy evidence. The Auditor was informed brushing teeth, using the bathroom, bathing, eating, changing clothes, and drinking could potentially destroy physical evidence.

The Auditor conducted formal interviews with the facility's medical practitioner. The practitioner has been trained to preserve physical evidence while evaluating and treating sexual abuse victims. The Auditor was informed the practitioner immediately treats life threatening injuries. If the victim has no life threatening injuries she collects the offender's vital signs and speaks to the victim about the process of forensic evidence collection. The SANE is immediately notified to report to the facility for the forensic examination. The Auditor was informed any clothing or other evidence removed from the victim while treating a life threatening injury would be placed in a brown paper bag with chain of custody information and provided to the Special Investigations Unit Investigator. The medical practitioner stated she attempts to preserve any evidence while treating the victim.

The WCU reported receiving no allegations of sexual abuse during this audit cycle. Supervisors informed the Auditor they are required to complete the agency's Sexual Assault Response Checklist following an allegation of sexual abuse. The checklist requires the supervisor to document first responder duties.

While interviewing offenders the Auditor asked if any had seen or heard of an incident of sexual abuse occurring in the facility. The Auditor was informed incidents of sexual abuse do not occur in the facility. None had heard of or witnessed an incident of sexual abuse.

Conclusion:

The Auditor determined the facility has trained its staff in their responsibilities as a first responder to an incident of sexual abuse. Staff interviewed by the Auditor understand the required first responder duties. The Auditor reviewed agency policies, procedures, Coordinated Response Plan, Sexual Assault Response Checklist, and interviewed staff and offenders. The Auditor determined the facility meets the requirements of this standard.

The Sexual Assault Response Checklist requires the staff include the date and time each action listed above is taken.

The Auditor conducted formal interviews with staff responders listed in the facility's Coordinated Response Plan. Each were asked questions related to their specific duties in response to a sexual abuse incident. Each person interviewed was knowledgeable regarding their specific duties as required in the WCU Coordinated Response Plan. The Auditor determined the facility has prepared its staff to take appropriate actions in response to sexual abuse. The Auditor found facility staff, volunteers and contractors have been trained in their responsibilities in response to an allegation of sexual abuse. The agency's training includes elements of its coordinated response plan. The Auditor verified all agency personnel, volunteers and contractors had received the training.

The Auditor conducted formal interviews with offenders. Offenders were asked if they felt safe in the facility. Each offender interviewed stated they do feel safe in the facility. Some offenders stated the WCU is the safest facility they have been incarcerated in. Offenders were asked if they are confident in staff's abilities to respond to incidents of sexual abuse. Each offender stated they are confident in staff's abilities to respond to incidents in the facility.

The Auditor determined staff understands they are required to immediately ensure the safety of each offender who alleges sexual abuse. There were no incidents that required staff implement first responder duties as required in the facility's Coordinated Response Plan within the previous 12 months.

Conclusion:

The Auditor determined the facility has developed an appropriate response plan that coordinates the actions of personnel following an incident of sexual abuse and have trained its

personnel in the required actions. Based on a review of the agency's policies, procedures, Coordinated Response Plan, Sexual Assault Response Checklist, training records, and interviews with staff and offenders, the Auditor determined the WCU meets the requirements of this standard.

Retaliation Monitoring Form - Inmates

Interviews with Staff

Interviews with Offenders

Analysis/Reasoning:

The Virginia Department of Corrections has an appropriate policy to ensure offenders and staff are monitored and protected from acts of retaliation by staff or other offenders. The WCU has designated the PREA Compliance Manager responsible for monitoring for acts of retaliation. The Auditor conducted a formal interview with the PREA Compliance Manager. The Auditor asked the PCM is responsible for monitoring for acts of retaliation against offenders and staff. The Auditor asked the PCM to explain how retaliation monitoring is conducted at the facility. The retaliation monitor explained he reviews disciplinary charges, housing changes, program changes, grievances, Incident Reports, classification actions, evaluations, shift rosters and post assignments. The Auditor asked if he initiates the contact with the offender or staff member being monitored. The monitor stated he initiates meetings with the person being monitored. The Auditor asked who is monitored for retaliation. The PCM stated he monitors those who report an allegation, the victim(s) and anyone else who expresses a fear of retaliation for cooperating.

The Auditor asked the monitor how often meetings with the staff member or offender occur. The Auditor was informed he is required to meet with the offender at least every 30 days. He explained he would meet with the offender or staff member at least weekly. The Auditor asked the retaliation monitor if he would stop monitoring if the offender or staff member requested him to do so. The monitor stated he would not stop monitoring until at least 90 days have transpired.

The retaliation monitor was asked how he is notified when an offender or staff member requires monitoring. As the facility's PCM he is notified following all allegations of sexual abuse and sexual harassment allegations in the facility. The Investigators report to the PCM to alert him when monitoring is required. The Auditor asked the PCM what actions he can take to ensure the protection of an offender. The PCM stated he will recommend housing, program, education and work changes. When staff are being retaliated against, the PCM would recommend post or shift assignment changes if needed to limit contact with the person who was retaliating against the staff member. In such cases, the staff member retaliating against another staff member would be disciplined, if warranted. The PCM was asked if the facility is currently monitoring any offenders or staff for retaliation. The PCM is not currently monitoring any offender or staff member.

The agency utilizes a standardized form when monitoring staff and offenders for acts of retaliation. The standardized form ensures retaliation monitors are complying with the requirements of this standard. There is a separate form for staff and offenders being monitored. The offender form includes the reason the person is being monitored, the type of allegation, sections for periodic status checks, to include a review of discipline, housing, and program changes, grievance review, other and a comments section. The staff monitor form

includes a review of disciplinary action and performance reviews. The monitor is required to stipulate if changes were made to the staff member's job or post assignments.

The Auditor conducted formal interviews with offenders. No offender interviewed had made an allegation of sexual abuse or sexual harassment in the facility. When asked, each offender stated they had not witnessed or heard of an incident of sexual abuse or sexual harassment happening in the facility.

The facility received no allegations of sexual abuse or sexual harassment during this audit period. The facility reported no incidents of retaliation were found during the previous 12 months.

Conclusion:

The Auditor determined the agency has appropriate policies and practices in place to ensure staff and offenders are protected from retaliation. The Auditor reviewed the VADOC policies, procedures, monitoring forms, conducted interviews with staff and offenders and determined the facility meets the requirements of this standard.

115.68	Post-allegation protective custody
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Auditor Discussion:</p> <p>The Virginia Department of Corrections requires any use of segregated housing to protect an inmate who is alleged to have suffered sexual abuse is subject to the requirements of policies 425.4 and 830.5 that align with the requirements of PREA standards 115.43 Protective Custody.</p> <p>Evidence Relied Upon:</p> <p>Policy - 425.4, pg. 6-8, 12, 21</p> <p>Policy - 830.5 Transfers, Institution Reassignments, pg. 11-12</p> <p>Sexual Abuse/Sexual Harassment Available Alternatives Assessment</p> <p>Housing Records</p> <p>Interviews with Staff</p> <p>Interviews with Offenders</p> <p>Observations</p> <p>Analysis/Reasoning:</p> <p>The Auditor reviewed the agency's policy regarding the use of segregation housing to protect offenders at high risk of sexual victimization. The agency's policy states offenders identified as high risk of sexual victimization will not be placed involuntarily in segregated housing unless an assessment of available alternatives has been made, and it has been determined by the qualified mental health professional in consultation with the Regional PREA Analyst and Shift Commander that no available alternatives of separation exist. Policy requires the Shift Commander to complete a Sexual Abuse/Sexual Harassment Available Alternatives Assessment form prior to placing a HRSV in special housing for protection. The agency's policy allows the Shift Commander to place the HRSV offender in special housing for protection for no more than 2 hours before completing the Sexual Abuse/Sexual Harassment Available Alternatives Assessment if the form cannot be completed immediately.</p> <p>The Auditor reviewed the agency's Sexual Abuse/Sexual Harassment Available Alternatives Assessment form. The form includes the following considerations:</p> <ul style="list-style-type: none"> • Can offender be reassigned to another housing unit; • Was another alternative to involuntary segregated housing used, list option; • Can offender be transferred to another facility; • If allegation was made and staff is alleged perpetrator, was the staff member placed on administrative leave or placed on another post; • Was the offender or alleged victim (if allegation) reassigned to Special

Housing/Restrictive Housing Unit for Protective Custody; and

- Is access to programs, privileges, education, or work opportunities restricted, list which ones and why?

The assessment form requires the signature of the Facility Unit Head and stipulates the form be emailed to the Regional PREA Analyst. The form also requires a written justification for all "no" answers listed above. The form states, "...offenders at a high risk of sexual victimization or offenders who have alleged sexual abuse or sexual harassment shall not be placed in involuntary segregated housing, unless:

1. An assessment of all available alternatives has been made, and,
2. A determination has been made that there are no available alternative means of separation from likely abusers."

Agency policy requires the institution to clearly document the basis for safety concerns when placing a HRSV offender in Special Housing for protection. The Shift Commander is required to document the reason why no alternative means of separation can be arranged when placing the offender in special housing. The agency allows involuntary assignment to special housing only until alternative means of separation can be arranged; not to ordinarily exceed 30 days. Mental Health staff are required to advise whether the offender can be released to general population or transferred to the VADOC Protective Custody Unit. Agency policy stipulates HRSV offenders placed in special housing for protection shall have access to programs, privileges, education, and work opportunities to the extent possible. The institution is required to document the opportunities that have been limited, the duration of the limitation and the reason for limitations. These restrictions are required to be documented on the Special Housing Denial of Activity or Service form.

The agency conducts a review every seven days of an offender's first two months in Special Housing and every 30 days thereafter. These reviews are documented electronically on the Special Housing Status Review maintained on the agency's VACORIS system. Policy requires all offenders identified as HRSV be reviewed to determine whether there is a continued need for separation from general population. This review is documented on the Special Housing Status Review form.

The Auditor conducted a formal interview with facility staff. Staff were asked if they had ever supervised an offender who has been placed in segregated housing after allegedly suffering sexual abuse or identified at substantial risk of sexual abuse for their protection. Staff informed the Auditor they had not supervised an offender in the holding cells strictly for the protection from sexual abuse. The Auditor was informed the holding cells are rarely used and offenders are generally in them for no more than 24 hours. The Auditor asked if offenders in the segregated housing have access to programs, privileges, education and work opportunities. The Auditor was informed policy allows offenders access to privileges, education and programs in the Restrictive Housing Unit.

The Auditor conducted formal interviews with supervisors. The Auditor asked if the reasons for restrictions of programs, privileges, education and work of offenders in segregated housing are documented. Supervisors informed the Auditor any offender who requires protective custody are transferred from the facility. The Auditor was informed the agency has a Special Housing Denial of Activity or Service form for such purposes. The Special Housing Denial of

Activity or Service form becomes part of the offenders permanent record. Any restrictions are forwarded to the housing unit so staff supervising the offender are aware of the restriction. The Auditor was informed the Case Manager reviews an offender's status in segregation every 7 days for the first two months and every 30 days after. Supervisors stated offenders are not placed in the holding cells for more than 24 hours in the facility.

Facility supervisors informed the Auditor if an offender was identified at risk of sexual abuse he would be moved to the other available housing unit without resorting to a segregation placement. The facility would then request one of the offenders be transferred to another facility. The Auditor asked Case Managers, supervisors, PCM, line staff, and Warden if an offender was every placed in segregated housing for the protection from sexual abuse. None could recall such a placement. The Auditor discussed the possibility of transfers with the Warden. The Warden informed the Auditor he has the ability to transfer an offender from the facility as long as there is a legitimate need to do so. The Auditor was informed the facility has never placed an offender in the holding cells for the purpose of protecting the offender from sexual abuse or the imminent risk of sexual abuse.

The Auditor conducted formal interviews with offenders. None of the offenders interviewed had been housed in the holding cells. None of the offenders had reported an allegation of sexual abuse or an imminent risk of sexual abuse. The facility received no allegations of sexual abuse or an imminent risk of sexual abuse during this audit cycle. The facility reported no usage of the holding cells to protect an offender from sexual abuse during this audit period.

The Auditor conducted a detailed tour of the Wise Correctional Unit. The Auditor observed two housing units available for the facility to house offenders without having to place them in involuntary segregated housing. The agency has the option to transfer offenders from the facility if the offender cannot be housed safely in the facility.

Conclusion:

The agency's policy includes the elements of PREA standard 115.43 to ensure sexual abuse victims receive privileges, programming, education, and work opportunities if a victim is placed in segregated housing for protection. After a thorough review of the agency's policies and procedures, Sexual Abuse/Sexual Harassment Available Alternatives Assessment form, housing records, making observations, interviewing staff and offenders, the Auditor determined the facility meets the requirements of this standard.

Investigative Report

Interview with Investigators

Interviews with Offenders

Analysis/Reasoning:

The Auditor conducted a formal interview with a facility investigator. The Investigator discussed the process when conducting sexual abuse investigations. The process starts by interviewing the alleged victim. During the investigation interviews are conducted with the alleged victim, perpetrator and all witnesses, including staff witnesses. The Investigator stated he attempts to collect the following evidence:

- Staff reports
- Housing records
- Grievances
- Disciplinary Information
- Video footage
- Telephone records
- Account records
- Statements
- Any physical evidence

The Auditor asked how the investigator determines the credibility of the person being interviewed. The Investigator stated credibility is mainly determined by the statements and actions during interviews. The Investigator reviews grievances, video, phone records, staff reports and previous complaints to aid in determining credibility. The Auditor was informed the agency's investigation report requires the investigator document the reason behind credibility assessments. The Investigator was asked if he makes an attempt to determine if staff actions or lack thereof may have contributed to an incident of sexual abuse. The Investigator stated he does make an attempt to determine if staff actions or lack thereof contributed to the incident.

The Auditor asked the Investigator how long it takes to initiate an investigation. The Investigator stated the process begins as soon as he is notified. The Investigator is called at home when allegations are made during non business hours. The Investigator reports to the facility. The facility is currently utilizing the Investigator at the Wallens Ridge Correctional Center when it receives an allegation of sexual abuse. The facility's newly appointed Investigator is scheduled for the VADOC investigator training in July 2021.

The Auditor toured the area where investigative records are maintained. The facility Investigator forwards all investigative records to the PREA Compliance Manager. The files are maintained in the PCM's locked office outside the secure perimeter of the facility. All information received by the PCM is logged in the PREA Office for data complying. The Auditor

asked the PCM how long he maintains investigative records. The Auditor was informed the data is maintained for at least 5 years after the abuser has either been released or is no longer employed by the VADOC. The Investigator was asked if he requires the victim to submit to a polygraph examination or other truth telling device. The Auditor was informed victims are not polygraphed and the facility does not use any other truth telling device.

The Investigator was asked if he conducts investigations into allegations that are made by a third-party and/or anonymously. He stated he investigates all allegations regardless of how they are reported. The Auditor asked the Investigator how he proceeds if a staff member terminates employment or an offender is released from the facility during an investigation. The Investigator stated he would notify the SIU Investigator. The SIU investigator has the legal authority to investigate allegations in the jurisdiction. The Investigators stated if the offender was transferred to another facility he would contact the Investigator at the other facility. The Auditor was informed the investigation would not stop if someone terminates employment, is transferred or released from custody.

The Auditor discussed the criminal investigative process in the facility with the investigator. The Investigator was asked to explain his role when the SIU Investigator conducts investigations in the facility. The Investigator stated he cooperates with the SIU and assist when asked to do so by the Investigator. The facility Investigator stated all evidence, to include video, account records, telephone records and staff reports are turned over to the SIU during criminal investigations. The SIU Investigator keeps the facility informed of the progress of the investigation.

The Auditor conducted a telephone interview with the SIU Criminal Investigator. The SIU Investigator explained he is contacted by the facility when receiving an allegation that appears to be criminal in nature. The investigator responds to the facility when an offender undergoes a forensic examination. The Auditor asked if the SIU Investigator collects physical and testimonial evidence. He explained he does collect evidence from the facility following an incident. The Auditor asked the Investigator if he communicates with the facility Investigator during an investigation. The SIU Investigator stated he does keep the facility informed during the process so the offender can be notified of results when required. The SIU Investigator explained he communicates with the Commonwealth Attorney's Office for prosecutorial efforts.

The agency has an Investigative Matrix that outlines when the facility and Special Investigations Unit are required to investigate allegations. The matrix specifies the facility Investigator conducts investigations of initial PREA, fraternization and harassment allegations. The matrix dictates investigations started at the facility that are confirmed PREA allegations will be referred to the SIU. The Special Investigations Unit is required to conduct investigations of confirmed PREA allegations, confirmed fraternization and sexual assault (ex. rape, forcible sodomy). The Agency has a formatted investigative report. The formatted report includes all required elements of this standard to ensure agency investigators document and complete the requirements of this standard.

The Auditor conducted a review of the VADOC training records. Records reveal the facility and agency's Investigators have received specialized training to conduct sexual abuse investigations in a confinement setting. The Auditor asked facility investigators what their actions are when they determine the evidence appears to support prosecution. Each Investigator stated the administrative investigation is stopped and the SIU Investigator is notified immediately. Each Investigator was asked if they continue interviews after notifying the

SIU. The Auditor was informed administrative efforts would not be completed until notified to do so by the SIU.

The Auditor conducted formal interviews with offenders. None of the offenders had made an allegation in the facility during the previous 12 months. The facility did not receive an allegation of sexual abuse or sexual harassment during this audit cycle.

No department of justice component is responsible for conducting investigations in the Wise Correctional Unit.

Conclusion:

The Auditor determined the VADOC has appropriate policies to ensure investigations are conducted appropriately, objectively and thorough. The facility trains its investigators to conduct investigations in a confinement setting. The facility investigator is aware all criminal allegations must be referred to the Special Investigations Unit for criminal investigation. The Auditor reviewed agency policy, procedures, training records, Investigative report, investigative matrix, made observations, interviewed staff and offenders to determine the facility meets the requirements of this standard.

The Auditor asked the PCM who notifies the offender following an indictment and/or criminal charges placed against an offender or staff member. The PCM stated that information is obtained from the SIU and the notification would be made by either the investigator or PCM. The Auditor asked the PCM how notifications to offenders are documented by the facility. The Auditor was informed notifications are documented on a letter to the offender and processed as legal mail.

The Auditor asked the PCM how notification is received from the SIU regarding criminal charges and indictments. The PCM stated the SIU Investigator contacts the Warden, PCM or investigator so proper notification can be made to the offender. The PCM informed the Auditor retrieving that information is not difficult as the SIU is part of the agency and required by policy to provide the information. The Auditor conducted a formal interview with an SIU Investigator. The SIU Investigator was asked if he notifies the facility following the placement of criminal charges and/or indictments. The SIU Investigator stated he does contact the facility and shares that information. The SIU investigator was asked if he would ever notify an offender of the investigative or prosecutorial efforts. The investigator stated the facility is obligated to notify the victim. The SIU Investigator is required to communicate investigative and prosecutorial information to the facility.

The Auditor conducted interviews with offenders. None of the offenders reported an allegation in the facility during the previous 12 months. The facility received no allegations of sexual abuse or sexual harassment during this audit cycle. The facility was not required to notify any offender of an investigative finding.

Conclusion:

The Auditor concluded the PCM understands the requirement and the agency has appropriate procedures in place to notify offenders of investigative results at the conclusion of an investigation of sexual abuse. The Auditor reviewed agency policy, procedures, interviewed staff and offenders to determine the agency meets the requirements of this standard.

115.76	Disciplinary sanctions for staff
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Auditor Discussion:</p> <p>The Virginia Department of Correction staff is subject to disciplinary sanctions up to and including termination for violating the agency’s sexual abuse or sexual harassment policies. The agency makes termination the presumptive disciplinary measure for those who have engaged in sexual abuse. Disciplinary sanctions for personnel who have not engaged in sexual abuse but have violated the facility’s sexual misconduct policies are commensurate with the following:</p> <ul style="list-style-type: none"> • The nature and circumstances of the acts committed; • The staff members disciplinary history; and • The sanctions imposed for comparable offenses by other staff with similar histories. <p>The VADOC notifies law enforcement agencies and relevant licensing bodies when criminal violations of sexual abuse or sexual harassment are committed by staff. Any terminations or resignations by staff who would have been terminated if not for their resignation are reported, unless that activity was clearly not criminal. The agency's policy requires staff who are terminated or resign in lieu of termination for violating sexual abuse or sexual harassment policies are notified of the agency's responsibility to report such violations to licensing bodies and/or law enforcement agencies.</p> <p>Evidence Relied Upon:</p> <p>Policy - 135.1, pg. 11</p> <p>Policy - 135.2 Rules of Conduct Governing Employees Relationships with Offenders, pg. 5</p> <p>Interviews with Staff</p> <p>Analysis/Reasoning:</p> <p>The Auditor conducted formal interviews with facility staff. The Auditor asked if staff were aware of the disciplinary sanctions for violating the agency's sexual abuse policies. Staff informed the Auditor they would be terminated for participating in an act of sexual abuse. Staff were also aware the VADOC reports criminal violations to law enforcement agencies. The agency's command staff has a zero-tolerance approach and disciplines staff for violating the agency's sexual abuse and sexual harassment policies. Command staff interviewed by the Auditor stated any employee who violates sexual abuse and sexual harassment policies are immediately removed from contact with offenders and disciplined when warranted. Disciplinary recommendations for violating sexual harassment policies are dependent upon the circumstances of the act. The Auditor was informed by command staff that an employee who commits an act of sexual abuse will be terminated.</p> <p>The Auditor conducted formal interviews with the facility Investigator. The Investigator informed the Auditor if the act was criminal in nature the investigator would contact the Special</p>

Investigations Unit for a criminal investigation. The investigator immediately ceases efforts once a determination is made that sufficient evidence appears to support criminal activity. The Investigator coordinates with the SIU Investigator and assists in their efforts when requested by the SIU Investigator. The Auditor asked how the investigation is handled if the act was not criminal in nature. The Investigator continues the investigation until a determination is made. The results of the investigation are shared with command staff so appropriate discipline against a staff member can be sanctioned if warranted.

The Auditor conducted a telephone interview with an agency SIU Investigator. Each Special Investigations Unit Investigator has the legal authority to place criminal charges against a staff member who engages in sexual abuse or a criminal act of sexual harassment. The SIU investigator informed the Auditor he notifies the Commonwealth's Attorney following such an incident if the act was clearly criminal.

The Auditor observed the agency's policy included a provision to notify law enforcement agencies of criminal violations of sexual abuse. The policy also requires the agency's PREA Coordinator notify relevant licensing bodies. The Auditor discussed the requirements of this standard to notify relevant licensing bodies. The Auditor was informed the PREA Coordinator would contact the Virginia Department of Health Professionals of violations by medical/mental health practitioners. The Auditor discussed the requirement for the agency to notify law enforcement and relevant licensing bodies with the facility's command staff. Command staff are clear on the requirement following a criminal act of sexual abuse.

The Wise Correctional Unit reported no staff member had been found in violation of agency sexual abuse or sexual harassment policies in the past 12 months. The Wise Correctional Unit Warden has the authority to discipline staff, including suspension and termination. The facility was not required to notify a relevant licensing body following any investigation conducted within the previous 12 months. The facility received no allegation of sexual abuse or sexual harassment against a staff member during this audit cycle.

The facility received no allegations of sexual abuse or sexual harassment against a staff member during this audit cycle.

Conclusion:

The Auditor determined the agency has appropriate policies and practices in place to ensure staff are disciplined for violating the agency's sexual abuse and sexual harassment policies. The agency makes termination the presumptive discipline measure for engaging in acts of sexual violence. The agency reports violations of sexual abuse to the local law enforcement agency and relevant licensing bodies. The Auditor reviewed the agency's policies, procedures, and conducted interviews with staff and determined the agency meets the requirements of this standard.

The contractor stated he would be restricted from access to the facility. The Auditor was informed the SIU does not defer to the Commonwealth Attorney's Office if the act was clearly not criminal. Command staff, facility investigators, PCM and the Warden were asked if a contractor or volunteer had been disciplined within the previous 12 months for violating the VADOC sexual abuse or sexual harassment policies and procedures. The Auditor was informed no contractor or volunteer had been found in violation of those policies.

The agency notifies the Virginia Board of Health Professionals when a licensed medical or mental health professional is found in violation of such policies.

Conclusion:

The VADOC maintains appropriate policies to ensure contractors and volunteers at the Wise Correctional Unit are removed from offender contact after committing an act of sexual abuse or sexual harassment of an offender. The Auditor reviewed the agency's policies, procedures, training records, training curriculum and conducted formal interviews with staff and contractors to determine the facility meets the requirements of this standard.

Interview with Investigator

Interview with Medical Practitioner

Interview with Mental Health Practitioner

Interviews with Offenders

Analysis/Reasoning:

The Auditor conducted a formal interview with the facility's Investigator. The Investigator informed the Auditor disciplinary charges are placed following a substantiated administrative allegation of sexual abuse and/or following a criminal finding of guilt. Disciplinary charges are not placed on an offender for filing an allegation unless the facility can prove the offender made the allegation in bad faith. The Investigator was asked if charges are placed on offenders if an act is consensual. The Auditor was informed disciplinary charges are placed on offenders for participating in sexual activity. The Investigator explained offenders who participate in a consensual sex act are not charged for a sexual abuse related offense.

The Auditor conducted a formal interview with the facility's medical and mental health practitioners. The Auditor asked what services are offered to offenders. Offenders are offered counseling, therapy and other intervention services. The Auditor asked if offenders are required to participate in any meetings or sessions. The Auditor was informed offenders are not forced to participate in any mental health service offered at the facility. Medical and mental health services are offered to all offenders. Offenders maintain the right to refuse services. The mental health practitioner informed the Auditor her department is involved following an act of sexual abuse, including a consideration of whether mental disabilities may have contributed to the incident. The facility does not maintain mental health staff on site. The mental health practitioner reports to the Wise Correctional Unit as needed from the Wallens Ridge State Correctional Center.

The Auditor conducted formal interviews with offenders. None of the offenders made an allegation of sexual abuse. The facility reported there were no allegations received during this audit period and no offender disciplined for making an allegation of sexual abuse in bad faith.

Conclusion:

The Auditor discovered the agency maintains policies that align with PREA standard 115.78 Discipline Sanctions for Inmates. Facility personnel ensure the policy is applied when choosing whether to discipline an offender for reporting or participating in an act of sexual abuse. The Auditor reviewed the facility's policies, procedures, interviewed staff and offenders. The Auditor determined the facility meets the requirements of this standard.

115.81	Medical and mental health screenings; history of sexual abuse
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Auditor Discussion:</p> <p>The Virginia Department of Corrections policy requires staff to offer a follow-up meeting with a medical or mental health professional and must occur within 14 days of arriving at the facility for any offender who informs staff he/she previously experienced sexual victimization or perpetrated an act of sexual abuse. The policy applies to any offender who reported whether the abuse occurred in an institutional setting or in the community. The Qualified Mental Health Professional informs each offender of relevant treatment and programming options.</p> <p>Policy stipulates information related to sexual victimization and abusiveness that occurred in an institutional setting be strictly limited to medical, mental health, and other staff as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by Federal, State, or local law. The Auditor reviewed the records of offenders. A review of records revealed none reported suffering sexual victimization during the booking process. During interviews with offenders the Auditor discovered one offender who had experienced sexual abuse in the community. The offender did not report the victimization to facility staff. The facility received no offenders who were found to have been the perpetrators of an act of sexual abuse during this audit period. The Auditor reviewed the risk screening form. The risk screening is completed by the Case Manager upon intake. The form requires the Case Manager document the referral to</p>

the mental health professional when an offender has reported suffering from or perpetrating sexual abuse.

The Auditor conducted a formal interview with medical and mental health practitioners. The medical practitioner screens every offender who enters the facility. The Auditor asked if offenders are offered a follow up with the mental health professional when they report previously suffering sexual abuse. The Auditor was informed they are offered a follow-up meeting with a Mental Health Professional. Medical and mental health practitioners were asked who they share information with. The Auditor was informed they only discuss the information they learn with those who have a need to know. The Auditor asked medical and mental health practitioners if they obtain written informed consent prior to sharing information related to sexual victimization that occurred in the community. The Auditor was informed if the victimization occurred in a community setting written informed consent would be obtained prior to reporting. No medical or mental health practitioner has had a need to report such victimization.

The Auditor asked the medical health practitioner who information regarding a sexual victimization or abusiveness that occurred in an institutional setting is reported to. The Auditor was informed that information is reported to the Shift Commander. The Auditor asked who has access to an offender's medical and mental health record. Only medical and mental health practitioners have access to an offender's medical and mental health records.

The Auditor asked the mental health practitioner if she meets with offenders who have suffered sexual victimization in the community. The mental health practitioner stated she does meet with offenders who suffered sexual victimization. The mental health professional is notified when an offender reports suffering sexual victimization in the community, following an incident of sexual abuse and by referral or requests. When the offender agrees to accept the meeting, she does meet with the offender. The Auditor asked if meetings with her are mandatory or required. The mental health professional stated they are not mandatory; the offender has to agree to participate. The Auditor asked if sexual abusers are offered a follow-up meeting with mental health. The mental health practitioner informed the Auditor sexual abusers are offered a follow up but are not required to accept. When asked how the mental health practitioner is notified of offered follow-ups the mental health practitioner stated she receives an email or a phone call from the facility. The mental health practitioner then reports to the facility from the Wallens Ridge Correctional Center. The mental health practitioner stated she had not reported to the facility to conduct such follow ups.

The Auditor conducted a formal interview with two Case Managers. Case Managers were asked if offenders are offered a follow up meeting with a medical or mental health practitioner if an offender reports previously suffering sexual victimization during the risk screening process. The Auditor was informed a follow up with the QMHP is offered. When asked how long it generally takes for the meeting to occur the Auditor was informed the QMHP would meet with the offender within a couple days. Case Managers were asked who has access to the information obtained on the screening questionnaire. The Auditor was informed that information is accessible to select personnel who can inform housing, treatment and education decisions. The Auditor asked Case Managers how they notify mental health after learning an offender suffered sexual victimization. The Auditor was informed either an email is sent to the mental health practitioner or a phone call is made. Case Managers stated they inform the mental health professional after learning an offender perpetrated an act of sexual abuse.

The facility has not offered a follow-up with a mental health practitioner during this audit period as a result of an offender suffering from victimization or perpetrating sexual abuse.

The Wise Correctional Unit has not housed a youthful offender in the previous 12 months.

Conclusion:

The Auditor concluded offenders are offered a follow-up with a medical or mental health practitioner after reporting they have suffered sexual victimization and after the facility is informed the offender perpetrated an act of sexual abuse. Medical and mental health practitioners inform only those with a "need to know" of information related to sexual victimization. The Auditor reviewed the agency's policies, procedures, offender records, risk screening form, conducted interviews with staff, medical/mental health practitioners and offenders. After a thorough review the Auditor concluded the agency meets the requirements of this standard.

Interviews with Offenders

Analysis/Reasoning:

The Auditor conducted formal interviews with medical and mental health practitioners. The Auditor asked if they feel medical and mental health services offered at the facility are consistent with a community level of care. The practitioners feel the services offered at the facility are consistent with those offered in the community. The Auditor asked if there is ever a time when no medical practitioner is on duty. The Auditor was informed the facility does not have 24 hour medical coverage. The medical practitioner stated correctional staff maintain certification in CPR and First Aid in the event assistance is needed when she is not at the facility. The Auditor was informed the nurse and contract physician are on call 24 hours. In the event needed the Shift Commander places a call to 911 for emergency medical assistance.

The medical practitioner informed the Auditor offenders receive timely, unimpeded access to emergency medical treatment and crisis intervention services. Crisis intervention services are offered by the QMHP and through the Virginia Sexual and Domestic Violence Action Alliance. The Auditor asked the nurse if she offers timely information and access to sexually transmitted infection prophylaxis to offenders who are victimized by sexual abuse. The Auditor was informed offenders are offered such following an incident and any other time they request such. The nurse informed the Auditor sexually transmitted infection prophylaxis would be offered to an offender by the SANE during the forensic examination.

Medical and mental health practitioners were asked if offenders are charged a fee for treatment services related to a sexual abuse victimization. The Auditor was informed all services related to sexual abuse victimization are free to the victim. Each offender interviewed by the Auditor was aware treatments related to sexual victimization are provided at no cost to the victim.

The Auditor reviewed security staff training records. Security staff are provided training in CPR and first aid in the event first responder treatment is needed. The Auditor conducted formal interviews with security staff. Each informed the Auditor they take immediate steps to ensure victims are protected and receive emergency medical care in the event needed. Security staff immediately notify their supervisor and medical personnel following an incident of sexual abuse. Security supervisors were asked what actions they take to ensure the safety of the offender following a sexual abuse incident. The Auditor was informed they separate the offender and ensure the offender is immediately escorted to the medical area.

The Auditor reviewed the facility's Coordinated Response Plan. The facility's coordinated response plan includes actions that ensure offenders who are victimized by sexual abuse receive timely unimpeded access to emergency medical attention. The Auditor reviewed the agency's Sexual Assault Response Checklist. Among other actions, the checklist requires the following actions be documented:

- Escort the victim to the facility medical unit as soon as possible to provide examination, treatment, and evaluation;
- Offer the victim a forensic examination;
- Test for sexually transmitted diseases;
- Offer the victim advocacy services; and
- Provide ongoing medical and mental health care.

The Auditor reviewed the Memorandum of Understanding with the Virginia Sexual and Domestic Violence Action Alliance. The memorandum stipulates the VSDVAA agrees to maintain a statewide Hotline that provides confidential crisis intervention and emotional support services related to sexual abuse or assault victims. The VSDVAA also agrees to provide accompaniment services during a forensic examination and investigations. The Auditor conducted a telephone interview with a victim advocate from the Virginia Sexual and Domestic Violence Action Alliance. The Auditor discussed the Memorandum of Understanding with the victim advocate. The advocate explained the crisis intervention services offered to offender victims of sexual abuse. The victim advocate was unaware of an offender who has requested crisis intervention services from the Wise Correctional Unit in the previous 12 months.

The Auditor conducted formal interviews with offenders. The Auditor discovered some offenders were aware of crisis intervention services and others were not aware. Each was asked if they were provided written information upon arrival at the facility. Each informed the Auditor they received the facility's written information when they arrived. The Zero Tolerance Brochure provides the contact information to the VSDVAA. Each offender was asked if they were aware services related to sexual abuse are free offender victims. Each was aware those services are free. The Auditor asked offenders if they watched a video related to sexual abuse. Offenders stated they did see the video. Each offender informed the Auditor they have seen the sexual abuse posters on the housing unit bulletin boards. The postings include information how to contact the VSDVAA for emotional support services.

The Auditor conducted a telephone interview with a Sexual Assault Nurse Examiner. The SANE was asked if she provides sexually transmitted disease infection prophylaxis. The SANE stated that is offered and left in the follow-up plan for the facility medical personnel. The SANE informed the Auditor offenders do not pay a fee for the forensic examination. The SANE has not conducted a forensic examination of a Wise Correctional Unit offender during this audit period.

The facility received no allegations of sexual abuse during this audit cycle.

Conclusion:

The Auditor determined the facility provides offenders access to timely and unimpeded access to emergency medical services. Medical practitioners provide offender victims sexually transmitted infection prophylaxis. The Auditor reviewed the agency's policies, procedures, MOU, Coordinated Response Plan, Sexual Assault Response Checklist, Zero Toelrance Brochure and interviewed staff, offenders, advocate and SANE. The Auditor determined the agency meets the requirements of this standard.

requests such meeting or if medically necessary. Treatments and evaluations occur as needed or until treatment plans determine a need no longer exists. The Auditor asked the mental health practitioner what services are offered to victims of sexual abuse. The Auditor was informed counseling sessions, referrals, if appropriate, and follow-up services, if needed. The mental health practitioner creates and follows treatment plans. The Auditor asked the mental health practitioner if she felt services offered at the WCU are consistent with a community level of care. The Auditor was informed the services offered at the facility are consistent with community level services.

The Auditor asked the mental health practitioner if she attempts to discover the underlying reason that cause sexual abusers to commit such acts. The medical practitioner informed the Auditor she does attempt to conduct such evaluations and treatments with known offender-on-offender sexual abusers. The Auditor was informed those offenders are not required to participate in sessions with the mental health practitioner. The Auditor asked how long after learning an offender committed and act of offender-on-offender sexual abuse does she meet with them. The mental health practitioner stated she meets with the offender within a couple days. The mental health practitioner is aware the agency requires the meeting occur within 60 days.

The Auditor discussed the practice of offering sexually transmitted infection prophylaxis with the medical practitioner. The Auditor was informed those tests are offered at the time of the forensic examination and as routine medical care. The Auditor asked what the cost of services are for victims of sexual abuse. The Auditor was informed there are no costs for evaluations and treatments related to sexual victimization. The medical practitioner informed the Auditor she feels the services offered at the WCU are consistent with a community level of care.

The Auditor conduct a telephone interview with the Sexual Assault Nurse Examiner. The SANE explained she offers sexually transmitted disease and pregnancy testing at the time of the examination, when appropriate. The SANE offers all female victims timely information and timely access to lawfully pregnancy related services. The Auditor asked how much do the SANE services cost an offender. The SANE does not directly bill the offender for services related to the forensic examination. The SANE informed the Auditor she has not reported to the Wise Correctional Unit to conduct a forensic examination during this audit cycle.

The Auditor conducted interviews with offenders. No offender interviewed had filed an allegation of sexual abuse in the facility. None of the offenders had ever witnessed or heard of an incident of sexual abuse happening in the facility. The facility did not receive an allegation of sexual abuse during this audit cycle.

Conclusion:

The facility's medical and mental health practitioners offer counseling, treatment, sexually transmitted infection prophylaxis and make referrals for continued care when necessary. The services provided to offender victims are consistent with a community level of care. The Auditor reviewed policies, procedures, interviewed offenders, SANE and medical/mental health practitioners to determine the facility meets the requirements of this standard.

PREA Report of Incident Review

Interviews with Staff

Analysis/Reasoning:

The facility reported no allegations of sexual abuse were received during this audit cycle, as a result the facility was not required to conduct an Incident Review of any investigations.

The Auditor conducted a formal interview with a staff member who serves on the Incident Review Team. The staff member discussed the process of the review team with the Auditor. The staff member explained the team meets and discusses the incident and investigative report. The team member informed the Auditor the team follows the VADOC's formatted form to ensure all elements of this standard are considered. The team member stated the team does discuss recommendations for improvement and include those recommendations on the final report. The Incident Review Team Member was asked when the team meets following an investigation. The Auditor was informed the team meets within 14 days of the conclusion of the investigation. The Auditor asked if the team has met within the previous 12 months and was informed the team has not been required to review any incident during the previous 12 months.

The team member stated the review team consists of each required staff member in accordance with the agency's policy. The review team documents its findings at the conclusion of the meeting. The Auditor observed the formatted report documents the following:

- Consider whether the allegation or investigation indicates a need to change procedure or practice to prevent, detect or respond to sexual abuse;
- Review facility practice to ensure compliance with procedural requirements (e.g., housing assignments);
- Consider whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian; gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility;
- Examine the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse;
- Assess the adequacy of staffing levels in that area during different shifts; and
- Assess whether monitoring technology should be deployed or augmented to supplement supervision by staff.

The report is completed by the Incident Review team following the conclusion of a substantiated or unsubstantiated allegation of sexual abuse. The form requires the team member names be included. The form requires the signature of the Unit Head/Designee and the Regional Operations Chief/Regional Administrator. A copy of the form is forwarded to the Regional PREA/ADA Analyst. The PREA Report of Incident Review also asks, "What can be

done to limit the occurrence or reduce the severity of future incidents?" There is a "Proposed Action Plan" section on the report that requires the specific parties and completion target dates.

Conclusion:

The Auditor determined the facility understands the requirement to conduct an incident review within 30 days of the conclusion of each substantiated and unsubstantiated sexual abuse investigation. The Incident Review Team documents the performance of each incident review on a formatted form. The Auditor reviewed the VADOC policies, procedures, PREA Report of Incident Review, and conducted interviews with staff and determined the facility meets the requirements of this standard.

Virginia Department of Corrections offenders are housed, although the LCC is not under the VADOC's direct control.

The Agency's website includes all Bureau of Justice Surveys of Sexual Violence submitted by the agency from 2012 through 2014. The Auditor received copies of surveys submitted by the agency from 2014 through 2019 data. The VADOC PREA Hotline Coordinator compiles the data, completes the Survey of Sexual Violence and submits the completed form to the Bureau of Justice Statistics. All surveys are submitted by the PREA Hotline Coordinator before June 30th.

The Auditor discussed the collection of sexual abuse data in agency facilities. All data is derived from investigative reports, Incident Reports, Incident Reviews, and all supporting documents in investigative records. Data is reported to the PREA Hotline Coordinator who is responsible for maintaining and compiling the annual data. The PREA Hotline Coordinator has an office in the VADOC Headquarters Building where data is securely stored in the locked office. All data derived from the WCU is securely maintained in the Investigator's locked office.

Conclusion:

The Auditor observed evidence the facility is collecting and aggregating sexual abuse data annually. The reported data utilizes a standardized set of definitions. The Auditor reviewed the agency's policies, procedures, website, annual reports, Survey of Sexual Violence and interviewed staff and determined the facility meets the requirements of this standard.

The "Corrective Actions" section of the 2019 annual report included a statement a mirror was added in the facility's laundry room to eliminate a blindspot. The agency's 2019 Annual Report included corrective actions made at 33 VADOC facilities and specifies the corrective actions made at each facility.

There were no problem areas identified at the Wise Correctional Unit. The annual report includes a "Summary & Comparison" section. The section identifies the following:

- Increase in call/reporting volumes from 2018 to 2019
- PREA Hotline calls increased by approximately 292 calls
- Increase in Staff Sexual Harassment allegations
- Decrease in Staff Sexual Misconduct, specifically voyeurism allegations
- PREA Hotline mailbox size increased due to high volume of calls received
- More Non-PREA calls received than PREA calls. This resulted in additional reminders to the offender population as to the appropriate use of the PREA Hotline
- Regional PREA Analyst conducted quarterly site visits to review audit documentation, talk to staff and offenders about PREA and how to report
- Regional PREA Analyst toured all areas of the institutions with the sole purpose of looking for blind spots and making recommendations to remedy them
- Regional PREA Analyst conducted additional PREA Specialized Training for new investigators
- All facility audits during the 3rd year of the audit cycle passed without a formal corrective action period
- Curriculum for orientation and in-service were modified to make it more interactive
- PREA Newsletter was created and distributed monthly
- The PREA Unit presented multiple internal conferences to ensure staff in specific roles understood their responsibilities for PREA Compliance in their roles

The Auditor observed a section of the annual report that compares data from each facility in the specific regions with one another. The data is compared in a pie graph style. The data is compared for the Western, Central and Eastern Regions. The section also includes a pie graph comparison of the agency data as a whole. In addition to the pie graph charts, each includes the numbers of the allegations for the top three facilities in each region.

The Auditor discussed the annual reporting process with staff. The information for the annual report is derived from investigative reports, Incident Reviews and other relevant documents included in investigative records from each VADOC facility. Corrective actions are implemented at facilities when needed as the Incident Review Team recommends corrective actions when warranted following the incident review. Any corrective actions taken are documented in the agency's annual report. When problem areas are discovered, the Incident Review Team recommends a solution to address the problem area and includes the specifics in the annual report.

The Director of the Virginia Department of Corrections approves the agency's annual report before publishing on the agency's website. The Director and PREA Coordinator sign the annual report. The Auditor did not observe any redacted materials from any of the VADOC published reports.

Conclusion:

The Auditor concluded the agency completes an annual review of collected and aggregated sexual abuse data from its facilities, including a private facility that the agency contracts for the confinement of VADOC offenders. The annual report addresses problem areas and corrective actions taken and is approved by the Director prior to publishing on the agency's website. The Auditor reviewed the agency's policies, procedures, website, Annual Reports and interviewed staff to determine the agency meets the requirements of this standard.

On April 7, 2021 a notice to the population was sent to the Regional PREA ADA Analyst. The notice included an address for written correspondence from offenders. The notice was written in English and Spanish. The Auditor received no correspondences from offenders prior to arriving on site for the audit. The Auditor observed the confidential correspondence notices posted in all offender housing units. The Regional PREA/ADA Analyst confirmed in an email the notices were posted and the Auditor confirmed all notices were posted on April 9, 2021 during the facility tour.

The U.S. Department of Justice did not send a recommendation to the Virginia Department of Corrections for an expedited audit of the Wise Correctional Unit during this audit period.

Conclusion:

The Auditor concluded the Wise Correctional Center meets the requirements of this standard.
